DEAR Sir

RE: FUNDING OF N.G/CDF PROJECTS AT KHOROF HARAR POLICE STATION.

I would like to thank you for your continued support to our law enforcement efforts in Khorof Harar SubCounty through funding of security infrastructural projects. During your recent public participation forum in Khorof Harar we submitted a request to the NG/CDF Wajir East Constituency to assist in the funding of among other projects, the Station armoury at Khorof Harar Police Station. We are glad to learn that our wish for the armoury has been granted in this financial year.

Khorof Harar police station has been in existence since the year 2020 having been upgraded from a Police Post under the Wajir police station, however this station has been operating under makeshift structures and tents and this has not only hampered service delivery to the public but also poses a safety and security risk to our arms, ammunitions and personnel. We therefore really appreciate this step you have taken to construct an armoury for us and we shall co-operate and offer all the necessary support to ensue it is made to the right standards to serve its intended purpose. We hope to continue with this cordial working relationship with you.
