### 1.1 Introduction

Constituencies Development Fund was started in the year 2003 by an act of parliament to fund community-based projects at Constituency level to ensure prospective benefits accrue to a large cross section of the inhabitant of a particular area. The NG-CDF Board administers the fund with the Parliamentary committee on NG-CDF providing policy guidelines. ## 2.4 CHALLENGES

1. The constituency lies on the leeward side of Mt. Kilimanjaro hence receives very little rainfall
2. Most farming is done through expensive water pumps and gem sets
3. Wildlife menace and invasion into the farmlands and homes
4. Gully erosion causing infertile soils
5. Invasion by mathenge tree displacing all-natural vegetation & herbs causing harm to humans, and animals
6. Delay in disbursement of funds from the National level.
7. Inadequate funds for capacity building of various operatives involved in the management of the NG-CDF.
8. Phase funding of some projects which may lead to escalation of costs and delayed benefits to the community.
9. Delay in implementation of projects due to lack of technical support. The County (TaitaTaveta) has only one Public Works Officer and one registered procurement officer shared by the four constituencies.
10. Inadequate representation due to vastness of the constituency.
11. On going projects taking a large chunk of development funds
12. Lack of institutional memory caused by new committee members and new inexperienced staff
13. Late gazzement of the new committee leading to late handing over by the old committee members
14. Change of oversight of the fund due to changes of having a new Area Member of Parliament
15. High poverty index
16. Seasonal and bad roads
17. Transitional tensions and high expectations of the new committee

## 2.5 WAY FORWARD

1. New projects to incorporate water harvesting and drill boreholes for Schools
2. Plant more trees to counter mathenge trees, enhance forest cover mitigate soil erosion
3. Engage Kenya Wildlife Services for customer friendly compensation and Corporate Social Responsibility programmes
4. Employ competent staff with practicing certificates as clerk of works and procurement clerks
5. Enhance budgetary allocation to the NG-CDF through Equalization Funds

6. Increase allocation of Funds for Monitoring and Evaluation by setting aside a portion from each project of 5% administration budget
7. Allocate funds to completion instead of piecemeal and thinly funded projects
8. Train the new committee on NG-CDF and government operations
9. Capacity building of PMCs will go a long way in educating the masses
10. Partner to work well with other government and non-government agencies to lessen dependence on the fund

## 8.0 CONCLUSION

The National Government through the National Treasury was challenged to release the CDF money on time. The Area Member of Parliament was vested with the responsibility of appealing to the NG-CDF Board to release funds to the constituency on time to allow completion of projects and disbursement of bursary to bright but needy students.

The NG-CDF, County Government and other development stakeholders should plan and hold joint forums to avoid duplication of projects.

All on-going projects should be given priority to fast track their utilization to benefit the community.

Projects should be allocated enough money to enable timely completion since delays causes increase of costs due to various factors like inflation, insecurity, wear and tear.
