

MINUTES OF WUNDANYI NG-CDFC MEETING HELD ON 21/09/2021 AT THE NG-CDF OFFICE BOARDROOM AT 10.00AM

MEMBERS PRESENT

- | | |
|---------------------|----------------------|
| 1. Patrick Zighani | Chairman |
| 2. Warren Keke | Secretary |
| 3. Eunice Ngele | NG-CDFC Member |
| 4. Grace Karambu | NG-CDFC Member |
| 5. John Maghanga | NG-CDFC Member |
| 6. Clemence Toto | NG-CDFC Member |
| 7. Grace Tanganyika | NG-CDFC Member |
| 8. Bonface Mdambi | NG-CDFC Member |
| 9. Henry Wanjiku | Fund Account Manager |
| 10. Victor Kamonde | NG-CDFC Member |

AGENDA

1. Prayers
2. Reading and confirmation of previous minutes
3. Matters arising
4. Projects proposal financial year 2021/2022
5. Payment of bills
6. Adjournment

MIN 1/NG-CDFC/09/2021: PRELIMINARIES AND PRAYERS

The meeting was called to order at 10.00am and the opening prayers were conducted by Mrs. Grace Tanganyika. The Chairman welcomed all members and thanked them for being punctual, and he urged members to give priorities to the needy cases in the Constituency when considering the projects to be forwarded to the NG-CDF Board.

MIN 2/NG-CDFC/09/2021: READING AND CONFIRMATION OF PREVIOUS MINUTES

The Secretary took the members through the Minutes of the previous meeting which were confirmed to be the true copy of the deliberations by Eunice Ngele who was seconded by John Maghanga.

MIN 3/NG-CDFC/09/2021: MATTERS ARISING

There were no matters arising from the previous Minutes.

MIN 4/NG-CDFC/09/2021: PROJECTS PROPOSAL FINANCIAL YEAR 2021/2022

The Chairman informed the members that the committee is required to submit project proposals for the Financial Year 2021/2022 to the NG-CDF Board by 30th September, 2021 subject to the provisions of Section 28 of the NGCDF Act, 2015.

The Fund Account Manager informed members that the Constituency had been allocated a total of **Kshs. 137,088,879.00** for the current Financial Year.

The members were briefed on the guidelines for project proposal presentation as documented by the Circular sent by the NG-CDF Board. The members were also informed on the eligible projects as per the NG-CDF Act 2015.

Ongoing projects

The Fund Manager informed the members that it was a requirement by the Board as per the Circular issued that all the ongoing projects be given the first priority during preparation of the project proposal for Financial Year 2021/2022.

The committee deliberated on the project implementation status report to confirm on the status of all the NG-CDF funded projects and agreed to consider all the ongoing projects. Members deliberated on the ongoing projects with renovation works and noted that the amount allocated in the last financial year 2020/2021 was not adequate to complete all the activities because the structures required thorough renovation. After lengthy deliberations members agreed to top up the remaining balances as per the engineer's estimate to ensure that the work were completed on time because the Project Management Committees were at the procurement stage of implementation.

After lengthy deliberations based on priorities forwarded from the ward meetings, the members approved the following projects for funding in the Financial Year 2021/2022 in all the four wards in the Constituency: -

1.0 INTRODUCTION

The NG-Constituency Development Act 2015 stipulates in part 5 section 27 subsection 1 and 2 that the chairperson of the NG-CDFC shall, within the first year of the commencement of a new Parliament and at least once every two years thereafter, convene open forum public meetings in every ward in the constituency to deliberate on development matters in the ward and in the constituency.

The NG-CDFC shall then deliberate on project proposals from all the wards in the constituency and any other projects which the Constituency Committee considers beneficial to the constituency, including joint projects with other constituencies, consider the national development plans and policies and the constituency strategic development plan, and identify a list of priority projects, both immediate and long term, out of which the list of projects to be submitted in accordance with the Act shall be drawn from.

Citizen participation in project planning, management and implementation planning requires the involvement of concerned stakeholders. This includes identifying public concerns and values and developing a broad consensus on planned initiatives. It is also about utilizing the vast amount of information and knowledge that stakeholders hold to find workable, efficient and sustainable solutions

Public participation encompasses a range of procedures and methods designed to consult, involve, and inform the public to allow those that would be potentially affected by a decision or policy to have input into the process. Community participation motivates the stakeholders to work together, recognize the benefits of their involvement and own the projects in their localities

Stakeholders play a central role in setting up priorities and objectives of development Initiatives in order to ensure relevance and appropriateness. It is important that all stakeholders are involved in the development of projects and not just direct beneficiaries of an initiative.

1.1 ABOUT NG-CDF

The Constituencies Development Fund (CDF) was established under the Constituencies Development Fund (CDF) Act, 2003, amended in 2007 and repealed by the CDF Act of 2013. In 2015, the CDF Act of 2013 was declared unconstitutional and a new Act was enacted in 2015, being the National Government Constituencies Development Fund Act,

NG-CDF Act, 2015. The National Government Constituencies Development Fund (NG-CDF) is under the Ministry of Devolution and Planning.

The Constituency Development Fund (CDF) was introduced in Kenya in 2003 with the passage of the CDF Act 2003 by the 9th Parliament of Kenya which was repealed in 2013 by the CDF Act 2013. The CDF Act provides that the government set aside at least 2.5% of its ordinary revenue for disbursement under the CDF program.

The fund was designed to support constituency level, grass-root development projects. It was aimed to achieve equitable distribution of development resources across regions and to control imbalances in regional development brought about by partisan politics. It targeted all constituency-level development projects, particularly those aiming to combat poverty at the grassroots and entrench equitable distribution of development.

The objective of the Fund is to provide mechanisms for supplementing implementation of the National Government Development Agenda at the constituency level.

The CDF program has facilitated the putting up of new water systems, health and education facilities in all parts of the country, including remote areas that were usually overlooked during funds allocation in national budgets.

1.2 ABOUT WUNDANYI CONSTITUENCY

1.2 About Wundanyi Constituency

Background Information Constituency General Information

Location and Size

Wundanyi Constituency is one of the four constituencies of Taita Taveta County. It lies approximately 40km from Voi town and borders Mwatate, Voi and Taveta constituencies. According to the Kenya National Bureau of Statistics (2011), Wundanyi constituency occupies 3,376.00 Square Kms. The constituency is divided into seven administrative locations, and four wards namely Wundanyi-Mbale, Werugha, Mgange-Mwanda and Wumingu-Kishushe. It has seven locations namely; Werugha, Wundanyi, Mbale, Kishushe, Wumingu, Mghange and Mwanda

Fig 1: The Map of Wundanyi Constituency in the Context of Taita Taveta County

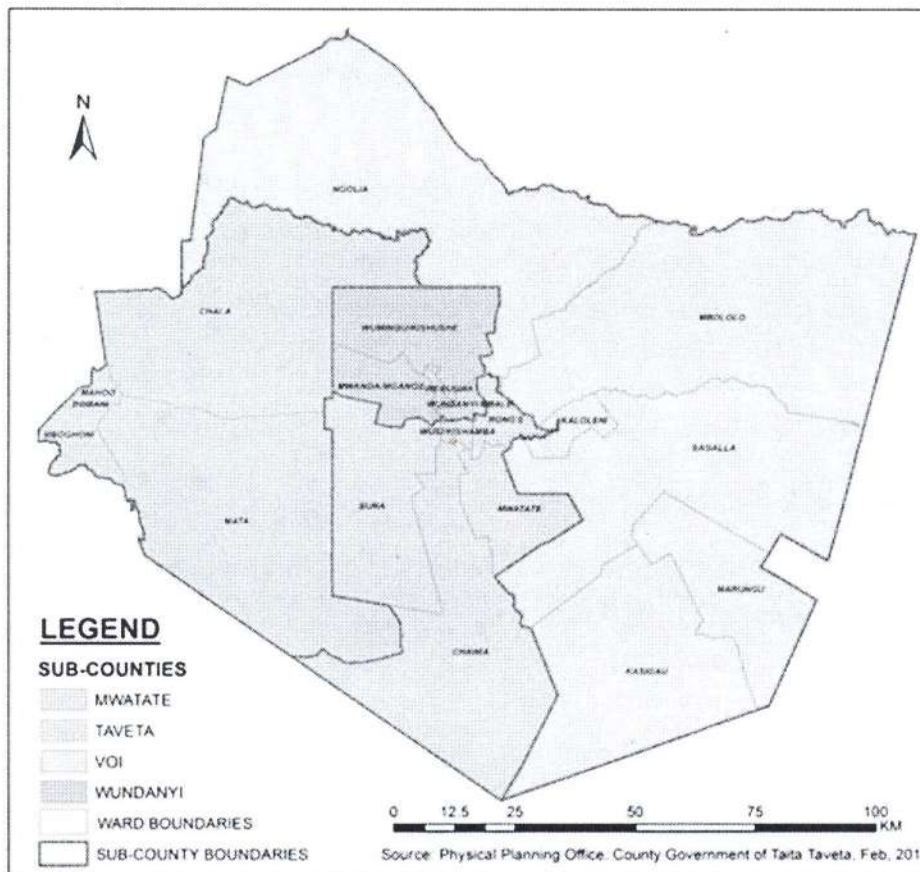

Fig 2: Wundanyi Constituency Map

Demographic Features

According to KNBS (2009), Wundanyi Constituency had a population of 58,600 with an estimated 14,532 households and covers 3,376.00 Km². The Taita Taveta County CIDP (2018/2022) projects that the population would rise to 64,469 by 2018. This represents a population density of 97.63 and sex ratio of 34,170 females to 34,299 males (1:1.003).

Infrastructure

The constituency is served by various road networks. Only about 6Km is bitumen class while the rest is earth. The constituency has no railway line and no airstrip. The Wundanyi-Mwatate road is the only tarmacked link to other constituencies.

Poverty

The constituency has high poverty levels. The population that is worst affected by overall poverty are the elderly and children. The high level of poverty in the county is partly attributable to erratic and inadequate rainfall especially in areas dependent on rain-fed agriculture and poor agricultural practices.

According to CIDP (2018/2022), the vicious cycle of poverty leads to low savings, low investments, low productivity (incomes), increase in unskilled labour and undue pressure on the arable land. Furthermore, the poor are not in a position to afford essential drugs, transport to the nearest health facility, or a balanced diet. Hence, poverty remains the main cause behind high rates of illiteracy, crude death, infant mortality, and low life expectancy.

Economic activities

Economic activities in the constituency include crop farming, ranching, livestock keeping, mining, tourism and trading. The Kishushe region is generally flat and vast making it suitable for ranching. There has been an increase in dairy milk production in the constituency prompting the establishment of a milk cooling plant with an estimated capacity of preserving 30,000 litres per day. The plant has created employment both directly and indirectly and improved daily income for households through milk sales.

The Taita Hills are a source of water to the lower regions making them suitable for fish farming, although it has not been fully exploited. The weather conditions for Wundanyi make it possible for farmers to grow trees on their farms where they harvest forest products including timber, building poles, firewood and to some extent charcoal. Generally, both exotic and indigenous tree species are grown in the Wundanyi. These include Cypress (*Cupressus lusitanica*), Silky Oak (*Grevillea robusta*), Blue Gum (*Eucalyptus saligna*) and Scot's pine (*Pinus sylvestris*).

Kishushe is prospected to have enormous deposits of iron ore. The iron ore resources at Kishushe have a great potential for creating value addition industries that can create employment and improve household incomes. Other mining activities include building stone, murrum and ballast quarrying, and sand harvesting at Mwarungu and Mbale

regions. The Iyale, Wesu, Wanyumba and Paranga rocks form an array of potential rock climbing and filming spots whereas the Ngangao forest, Iyale forest and Shomoto are excellent camping sites.

While the constituency is endowed with good weather, biodiversity, natural beauty, good soils, minerals, among others, the potential of the constituency remains largely unexploited. When optimally exploited, it will improve the economic livelihoods of the constituents.

WUNDANYI NG-CDF INSTITUTION REVIEW

2.1 Vision

To improve and secure the quality of life of the people of Wundanyi Constituency by promoting participatory and sustainable development.

2.2 Mission

We aim to achieve lasting improvements in the quality of life of Wundanyi residents, by prudently and equitably allocating resources.

3.5.8 WAY FORWARD

The meeting resolved that all the funds disbursed to projects be spent judiciously to promote value for money and boost the livelihood of the resident

3.6 CONCLUSION

- The meeting vested the area member of national assembly with the responsibility of appealing to the NG-CDF Board to release funds to the constituency in time within the financial year to help projects development and payment of school fees to bright but needy students.
- Frequent development forums should be held to give the public information concerning the development initiatives being undertaken by all the development partners and the various funding agencies.
- There should be a joint forum where NG-CDF, County Government and other development stakeholders plan together to avoid duplication of projects.
- The meetings resolved that ongoing projects shall be given precedence, to fast track their utilization to enable the beneficiaries get value for money.

- Allocations to projects should also be adequate, to enable completion of project once started, since if completion is delayed the project cost rises due to factors like inflation and wear and tear.
