1.0 INTRODUCTION

The Constituencies Development Fund (CDF) was established under the Constituencies Development Fund (CDF) Act, 2003, amended in 2007 and repealed by the CDF Act of 2013. In 2015, the CDF Act of 2013 was declared unconstitutional and a new Act was enacted in 2015, being the National Government Constituencies Development Fund Act, 2

NG-CDF Act, 2015. The National Government Constituencies Development Fund (NG-CDF) is under the Ministry of Devolution and Planning.

The NG-CDF Act 2015 stipulates in part 5 section 27 subsection 1 and 2 that the chairperson of the NG-CDF shall, within the first year of the commencement of a new Parliament and at least once every two years thereafter, convene open forum public meetings in every ward in the constituency to deliberate on development matters in the ward and in the constituency. The NG-CDF shall then deliberate on project proposals from all the wards in the constituency and any other projects which the Constituency Committee considers beneficial to the constituency, including joint projects with other constituencies, consider the national development plans and policies and the constituency strategic development plan, and identify a list of priority projects, both immediate and long term, out of which the list of projects to be submitted in accordance with the Act shall be drawn from.

Citizen participation in project planning, management and implementation planning requires the involvement of concerned stakeholders. This includes identifying public concerns and values and developing a broad consensus on planned initiatives. It is also about utilising the vast amount of information and knowledge that stakeholders hold to find workable, efficient and sustainable solutions

Public participation encompasses a range of procedures and methods designed to consult, involve, and inform the public to allow those that would be potentially affected by a decision or policy to have input into the process. Community participation motivates the stakeholders to work together, recognize the benefits of their involvement and own the projects in their localities

Stakeholders play a central role in setting up priorities and objectives of development Initiatives in order to ensure relevance and appropriateness. It is important that all stakeholders are involved in the development of projects and not just direct beneficiaries of an initiative.

1.1 ABOUT NG-CDF

The Constituencies Development Fund was first created by the Constituencies Development Fund Act, 2003 with the primary objective of addressing poverty at grassroots level by dedicating a minimum of 2.5% of the Government ordinary revenue to grassroots development and the reduction of poverty. Since then the parliament who are the legislators and the law makers have reviewed after we have devolve most of the work from National Government to County government and came up with National Government Constituency Development Fund (NG-CDF). The fund is managed by the NG- Constituencies Development Fund Board (NG-CDFB). The fund was designed to support constituency-level, grass-root development projects. It was aimed to achieve equitable distribution of development resources across regions and to control imbalances in regional development brought about by partisan politics. It targeted all constituency-level development projects, particularly those aiming to combat poverty at the grassroots and entrench equitable distribution of development.

The objective of the Fund is to provide mechanisms for supplementing implementation of the National Government development Agenda at the constituency level.

3.2.9 CHALLENGES

- The cost of the project and how they are ascertained, members identified that their ward is the vastest among the four wards in the constituency, hence distances should be considered in the cost and transportation of the materials and water.
- The kitty is too small comparing the demand at hand hence they request to revisit of the kitty by NG-CDFB
- Members expressed concern on the restrictive nature of the projects fundable by NG-CDF, especially in the agricultural, health and roads sectors, but the area member of national assembly urged them to forward the projects to the area member of county assembly who was also present in the meeting.

3.2.10 WAY FORWARD

The meeting resolved that all the funds disbursed to projects be spent judiciously to promote value for money and boost the livelihood of the residents

3.4.9 CHALLENGES

- The cost of the project and how they are ascertained, members identified that their ward is the furthest bordering Mandera, hence distances should be considered in the cost and transportation of the materials and water.
- Late disbursement of project funds leads to projects not being implemented in time which lead to rise in project costs due to factors like inflation due to time value of money and bursaries not awarded to students when the schools open, hence students and pupils retention in learning institutions is greatly affected negatively.

3.4.10 WAY FORWARD

The NG-CDF Board should facilitate timely disbursement of funds to constituencies in order to fast track development initiatives
