WARD REPORTS

2022/2023

SUBMITTED IN JANUARY 2023

1.0 INTRODUCTION

Section 6 of the NG-Constituency Development Act 2015 as amended in 2022 Provides that the NGCDF Board shall, with the approval of the relevant committee of the National Assembly, allocate funds for every constituency in each Financial Year in accordance with Section 34.

Pursuant to Section 34 (2) of the Act, the Chairman of the National Assembly Select Committee for the NGCDF tabled before the National Assembly a schedule showing the ceiling for each Constituency determined in accordance with Section 34(1). This was communicated to the NGCDF Board by the Clerk of the National Assembly vide letter referenced NA/DAA&OSC/NG-CDF/2022/004 dated 8th December 2022.

In view of the foregoing the NGCDFCs have been mandated to commence the preparation of the Project Proposal for the Year 2022-23 and submit the same for approval to the NGCDF Board. While Preparing and submitting the Project Proposals the NGCDFCs have been put to notice on the following key issues:

- Basis of Identification of Projects
- Eligible Projects under the NGCDF Act
- Basis for Allocation of funds to Projects
- Projects to be co-financed with other Agencies
- Adherence to Statutory Ceilings
- Allocations of funds for preparation of strategic Plans
- Implementation of High impact and best practice projects
- Construction of NGCDF Committee Office
- Procurement of NGCDFC Motor Vehicle
- Funding of necessary School Infrastructure to facilitate transition to Junior Secondary Schools

- Authentication of NGCDFC Minutes and schedules
- Project Coding through NGCDFMIS
- Format and Time line for submission of project proposals

Further, section 27 of the Act provides that the chairperson of the NG-CDFC shall, within the first year of the commencement of a new Parliament and at least once every two years thereafter, convene open forum public meetings in every ward in the constituency to deliberate on development matters in the ward and in the constituency.

The NG-CDFC shall then deliberate on project proposals from all the wards in the constituency and any other projects which the Constituency Committee considers beneficial to the constituency, including joint projects with other constituencies, consider the national development plans and policies and the constituency strategic development plan, and identify a list of priority projects, both immediate and long term, out of which the list of projects to be submitted in accordance with the Act shall be drawn from.

Citizen participation in project planning, management and implementation planning requires the involvement of concerned stakeholders. This includes identifying public concerns and values and developing a broad consensus on planned initiatives. It is also about utilizing the vast amount of information and knowledge that stakeholders hold to find workable, efficient and sustainable solutions.

Public participation encompasses a range of procedures and methods designed to consult, involve, and inform the public to allow those that would be potentially affected by a decision or policy to have input into the process. Community participation motivates the stakeholders to work together, recognize the benefits of their involvement and own the projects in their localities.

Stakeholders play a central role in setting up priorities and objectives of development

Initiatives in order to ensure relevance and appropriateness. It is important that all stakeholders are involved in the development of projects and not just direct beneficiaries of an initiative.

1.1 ABOUT NG-CDF

The Constituencies Development Fund (CDF) was established under the Constituencies Development Fund (CDF) Act, 2003, amended in 2007 and repealed by the CDF Act of 2013. In 2015, the CDF Act of 2013 was declared unconstitutional and a new Act was enacted in 2015, being the National Government Constituencies Development Fund Act, NG-CDF Act, 2015. This Act was further amended in 2022. The National Government Constituencies Development Fund (NG-CDF) is under the Ministry of Devolution and Planning.

The Constituency Development Fund (CDF) was introduced in Kenya in 2003 with the passage of the CDF Act 2003 by the 9th Parliament of Kenya which was repealed in 2013 by the CDF Act 2013. The CDF Act provides that the government set aside at least 2.5% of its ordinary revenue for disbursement under the CDF program.

The fund was designed to support constituency-level, grass-root development projects. It was aimed to achieve equitable distribution of development resources across regions and to control imbalances in regional development brought about by partisan politics. It targeted all constituency-level development projects, particularly those aiming to combat poverty at the grassroots and entrench equitable distribution of development.

The objective of the Fund is to provide mechanisms for supplementing implementation of the National Government Development Agenda at the constituency level.

The CDF program has facilitated the putting up of new water systems, health and education facilities in all parts of the country, including remote areas that were usually overlooked during funds allocation in national budgets.

3.2 VENUE OF THE MEETING:

The NGCDFC Public Forum for the Year 2022/2023 was held at various centers. The Moyale NG-CDFC Visited all the wards and held meetings with the community members. The Forum started with NG-CDFCs making visits to all the wards on designated dates and meeting community representatives. This Year's forum was a follow up of the last year's forum and confirmation of the many priority projects identified during the previous year.

The NGCDFC decided to hold the function in this manner because of Logistic Challenges. Moyale is an expansive Constituency and the Geographical Distances between various centres poses great challenges for the NGCDFC to move from one ward to another to conduct Community Meetings.

3.2.1 MEMBERS PRESENT

The Forum was attended by good number of Publics, 7 NGCDF Committees, Community elders, Youths, Women representatives, School Head teachers, Chiefs and the Opinion Leaders.

3.2.2 PRELIMINARIES

The NG-CDF Chairman greeted the Participants and read through the programme of the function for the six days. He would then invite the NG-CDFC Secretary to say a word. The NG-CDFC Secretary would then invite someone to lead in prayers.

3.3.5 CHALLENGES

Key Challenge during the ward Forums included the following:

- Poor Road Networks;
- Overwhelming needs
- Large area with diverse needs
- Poor Communication networks;
- Lack of water in the rural area.

There is also low literacy level among the population living in the rural areas which also practices nomadic lifestyles. Though the tarmac passes through some towns, the hilly regions have rough terrain and poor roads. Areas around the Border with Ethiopia have security challenges and not convenient or safe for NG-CDFCs to visit and spend nights due to frequent banditry attacks from neighboring communities.

Constituency Wide or Location Forums will cost the office very high due to logistical challenges and hence the need to restrict the meetings to representatives of the community.

3.3.6 WAY FORWARD

Community Members were urged to discuss their problems during community meetings or elders' meetings whenever they meet and send their proposals to the Office for record purposes. The Present Members of the Community were requested to hold sensitization meetings on the feedback of the forums once they arrive home. That is to call community gatherings and inform the people of what transpired at the public forum.

3.3.7 CONCLUSION

- The Community Members were informed that Issues raised in this Public Forum will be looked at by the NGCDFC and projects selected based on the priorities as identified by the community
- The Participants were informed that the projects chosen must meet the eligibility criteria set by the NGCDFB.
