## **1.0 INTRODUCTION**

The NG-Constituency Development Act 2015 stipulates in part 5 Section 27 Subsection 1 and 2 that the chairperson of the NG-CDFC shall, within the first year of the commencement of a new Parliament and at least once every two years thereafter, convene open forum public meetings in every ward in the constituency to deliberate on development matters in the ward and in the constituency.

The NG-CDFC shall then deliberate on project proposals from all the wards in the constituency and any other projects which the Constituency Committee considers beneficial to the constituency, including joint projects with other constituencies, consider the national development plans and policies and the constituency strategic development plan, and identify a list of priority projects, both immediate and long term, out of which the list of projects to be submitted in accordance with the Act shall be drawn from.

The principle of public participation is anchored in the constitution, with Article 1(2) summing it all that All sovereign power belongs to the people of Kenya and that the people may exercise their sovereignty directly or through their elected representatives while Article 10 (2) a, b and c reinforces the national values and principles of governance as; democracy and participation of the people; inclusiveness; good governance, integrity, transparency and accountability. The COK 2010 further through Article 27 and 35 guarantees public participation as a way to promote equality and non-discrimination and the right to access information by citizens respectively. This will thus contribute and strengthens democracy and governance process as it provides the public with opportunity to exercise their constitutional rights, making the process more representative.

Despite this progressive provision in the constitution and clear NG-CDF Project cycle (Identification, planning, implementation and monitoring), in the past very little happens in terms of public participation in project formulation and information sharing compromising on the quality of the project. The few attempts over the years to organize a public participation have ended in public acrimony and apathy due to skewed process and discrimination of some ethnic groups and regions (wards) in the NG-CDF projects. Such poor project identification, planning and poor targeting of different groups especially youths, women and people living with disability (PLWD) in the process reduce ownership, consequently affecting quality and successful implementation of the projects.

With studies showing that the level of public participation increases with knowledge and awareness, this process, greatly contributes to transparency and accountability besides providing the public, with platform on which they can engage with decision makers and or service providers. A well planned public participation will thus significantly enhance the trust between the NG-CDF and the public consequently increasing legitimacy in the process.

## **1.1 PROCESS OVERVIEW**

Public participation involves planning and identifying who should be involved in the process and this entails, engaging with both the community and other organized interest groups. This step is therefore designed to enrich the process by creating platform or opportunities for producing public views and opinion the identification and management of NG-CDF projects unlike in the past, where the process has been ‘political’ and or skewed or derived from top bottom approaches. Public participation thus reduces instances where politicians have influenced concentration of investment in areas largely perceived as their home turf or vote hunting ground.

At community level, the team engaged differently with both the youths, women and people with disabilities (PWD) and as well as local and other opinion leaders through either direct (focus group discussions, round tables and public hearing) or indirect participatory methods such as the use of local FM radio stations during prime hours for a ‘call in’ session, where communities will get an opportunity to engage with an ‘expert’ or Fund patron or manager on the NG-CDF plans.

The process was also used to map stakeholders and any other community structure for support during the identifications, implementations and monitoring of the projects and as well provides additional skills and insights that might not have been considered. These structures will also go a long way in managing conflicts between the different interest groups in the communities while enhancing ownership of projects. The stakeholder analysis will then further be used to identify strength of each stakeholder and area of operation as a framework for developing collaborative strategy between the institutions and NG-CDF.

With a clear guideline by the NG-CDF act on the areas of support, the fund has a clear budget line on which this money has to be spent, for instance the Act stipulates that the bulk of this funding classified as statutory goes into social Security programmes such as bursary Scheme at 35%, emergency 5%, administration 6%, monitoring and evaluation 3% and 2% for sport and environment respectively. The balance, 46% of the disbursement goes into funding of community projects (building of Schools and Security projects) generated through participatory process. This process will further be used to compliment future need assessment

for education and Security, where targeting or funding is done based on the felt need of the community.

## **1.2 ABOUT NG-CDF**

The Constituencies Development Fund (CDF) was established under the Constituencies Development Fund (CDF) Act, 2003, amended in 2007 and repealed by the CDF Act of 2013. In 2015, the CDF Act of 2013 was declared unconstitutional and a new Act was enacted in 2015, being the National Government Constituencies Development Fund Act, NG-CDF Act, 2015. The National Government Constituencies Development Fund (NG-CDF) is under the Ministry of Devolution and Planning.

The Constituency Development Fund (CDF) was introduced in Kenya in 2003 with the passage of the CDF Act 2003 by the 9th Parliament of Kenya which was repealed in 2013 by the CDF Act 2013. The CDF Act provides that the government set aside at least 2.5% of its ordinary revenue for disbursement under the CDF program.

The fund was designed to support constituency-level, grass-root development projects. It was aimed to achieve equitable distribution of development resources across regions and to control imbalances in regional development brought about by partisan politics. It targeted all constituency-level development projects, particularly those aiming to combat poverty at the grassroots and entrench equitable distribution of development.

The objective of the Fund is to provide mechanisms for supplementing implementation of the National Government Development Agenda at the constituency level.

The CDF program has facilitated the putting up of new water systems, health and education facilities in all parts of the country, including remote areas that were usually overlooked during funds allocation in national budgets.

## **2.0 ABOUT SAKU NG-CDF**

### **2.1 Constituency Overview**

Saku constituency (IEBC Code, 047) has 2,052 sq. kilometers including 560 sq. km of gazetted forest area and the National Park area. The constituency has 11 locations and 3 wards, with an estimated number of registered voters 28,000 and 68 polling stations. It has an estimated population of 80,000 people in 2018. The population under 35 years is estimated to be about 70%.

Saku occupies an area with a topography ranging from 800-1,700 meters above sea level. It has rich volcanic soil which can support a variety of crops and rich vegetation. It is this abundance of resources that attracts immigration thereby exerting pressure on available natural resources.

The constituency hosts the headquarters of the county and has four FM radio station stationed within the constituency. It also has the optic fiber that is provided by two ISPs, namely Orange and Safaricom, installed in various strategic institutions and businesses. Saku is entirely covered with Safaricom phone 4G connectivity while parts of urban centers in Saku constituency are connected to 3G connectivity.

### **3.0 CONSTITUENCY VISION, MISSION AND CORE VALUES**

#### **Mandate**

Overall management and administration of NG-CDF funds at the constituency level

#### **Vision**

Equitable socio-economic development for Saku Constituency

#### **Mission**

To provide leadership for effective and efficient management of Saku NG-CDF funds

#### **Core Values**

- Transparency
- Accountability
- Professionalism
- Objectivity
- Neutrality
- Advocacy for citizen participation
- Equality □ Equity

### **3.1 SITUATION OF NG-CDF FUND**

#### **3.1.1 Education**

Saku constituency has 34 public primary Schools, 11 private primary Schools, 11 public Secondaryondary Schools and 3 private Secondaryondary Schools. With a population of 12,090 enrolled pupils in primary Schools and 323 primary School teachers, the teacher-pupil ratio is 1:38. This teacher-pupil ratio compared to the national standard ratio looks very good, but the reality is that the teachers are not well distributed, that is some Schools have high pupils' population. Secondary School's enrollment stands at 2,645 students and 131 teachers. The Secondary teacher-student ratio is 1:21 which also seems very good. The report depicts scarcity of teachers specialized in teaching specific subjects. The study by the Ministry of Education also demonstrates that there is a 46% primary-Secondary transition and a 3% Secondary-university transition. The national average of primary-Secondary transition is 67% which demonstrates that the constituency level of primary-Secondary transition is very low. Primary-Secondary transition is a huge concern given that pupils can access affordable Secondary Schools within the county and the cost of Secondary education is relatively affordable. Subsequently, the students who meet the basic pass marks to join universities (both private and public) from the Secondary Schools within the constituency stand at 3% which is alarming.

The cause of the low primary to Secondary transition and a further decline in the Secondary to university transition can be attributed to various factors among them; early marriages particularly for the young girls, poverty, negative attitude towards education by the parents, parental negligence, bad cultural practices such as Female Genital Mutilation, drug abuse and radicalization.

The study also shows that out of every 110 School going age children 81 are in School, meaning either 29 either drop out or they never enroll.

Saku NG-CDF has been regularly allocating about 35% for education bursar and 40% on education infrastructure and learning materials.

### **3.1.2 Security**

The constituency is home to all major ethnic communities indigenous to Marsabit. It is also fairly rich in natural resources that is a source of regular violent conflict for use, ownership and control of these resources. When violent conflicts occur social programs, livelihood activities and institutions are affected. There is definitely a constant need to invest in peace building and peacekeeping activities to maintain a peaceful coexistence of the ethnic communities to achieve positive peace.

To enhance access to Security services, Saku NG-CDF has been investing about 7% of the fund to construct offices for location and sub-location Chiefs and construction of Administration Police camps.

### **3.1.3 Response to emergencies**

The constituency often experiences prolonged drought, flash floods both are destructive to property and environment. Cases of sporadic epidemics affecting livestock or human have been common. The violent conflicts often cause untold destruction of property, theft of stock, death and displacement of populations. These regular happenings necessitate emergency and humanitarian interventions by CDF funds and the funds have played a major role in assisting in normalization of the situation.

### **3.1.4 Environment**

Saku constituency is an oasis in a county that is vastly arid. The relatively abundant natural resources have been attracting migration of livestock and human population, thereby exerting enormous pressure on the natural resources of the constituency. Activities such as clearance of woodland and indigenous forests for settlement and farming, charcoal burning, and

pollution are rampant. Consequently, there has been degradation of environment and erosion of soil. The constituency requires a structured and concerted environmental management program.

However, about 2% of the fund has been supporting tree planting, afforestation and roof water harvesting projects on public spaces and buildings.

### **3.1.5 Youth, sports and skills development**

About 56,000 (70%) of the total population in the constituency is comprised of those under 35 years. Approximately 30,000 of these energetic and talented population are unemployed and unoccupied. Consequently, drug abuse, insecurity, radicalization and immorality are on the increase, therefore there is need to occupy these young men and women through technical and entrepreneurial skills acquisition and sports to harness their talents.

The constituency has one privately owned technical institution and one public vocational training center. The only stadium in the constituency is under modification to be a modern stadium. Despite the growing demand for technical skills, there are not enough facilities to accommodate the trainees. Therefore, there is enormous need for technical training and sporting facilities.

About 2% of the fund has regularly been allocated to support sports tournaments and distribution of sports kits.

### **3.1.6 Access to clean water**

Saku constituency experiences erratic rainfall, has no permanent rivers and low water table. This means exploitation of ground water is costly and unreliable. The most viable water resources development options are roof and ground surface water harvesting. Interventions in this Sector are undertaken by devolved units and non-state actors.

### **3.1.7 Food and nutrition insecurity**

Despite having relatively large arable land, the constituency received erratic rainfall thus discouraging farmers from growing crops and vegetables. Most farmers have resorted to growing Khat (miraa), a stimulant drug which is drought tolerant. This scenario has created low food production locally and overdependence on other regions in Kenya for subsistent food crops and vegetables supply. Interventions in this Sector are undertaken by the County department of Agriculture and non-state actors.

### **3.1.8 Livelihood opportunities**

Saku's main livelihood is pastoral and agro-pastoralism. However, it is a region that has rapidly growing urban centers and increasing settled population requiring development and spatial plans to provide for proper land use. There is low uptake of opportunities in market-based livelihoods to general households' income and employment opportunities. The limiting factors are cultural attitude, low entrepreneurship skills and poor enabling environment. It is the mandate of the devolved units to invest in this Sector in collaboration with other stakeholders.

### **3.1.9 Healthcare services**

The county referral hospital is located in Saku constituency. The constituency also has 3 public health centers, 11 public dispensaries, 1 Beyond Zero Mobile Clinic, 1 private hospital and 7 private clinics. The referral hospital is under pressure due to service demand from all over the county and also lacking specialized services. The outline clinics and health centers still lack adequate staffing and drugs thereby creating low healthcare standards and services. The county government of Marsabit has the mandate to invest in this Sector in collaboration with other relevant stakeholders

---

## **4.0 DOCUMENTATION OF THE WARD REPORTS**

The documents used during the ward meetings can be traced in the NG-CDFC file namely Saku NG-CDF 2022/2023 public projects identification and proposals forum, file number 001.

Venue Of The Meeting: Karare Chief's Office, Sangate Chief's Office, Marsabit Boys High School, Marsabit Town.

The NGCDFC Public Forum for the Year 2022/2023 was held at Marsabit Boys High School for Central ward, Sagante Chief's Office for Sagante ward, Karare Chief's Office for Karare ward. Each meeting was attended by Representatives of youth, women, elders, School Heads, Chiefs and other invited stakeholders. Dates of the four consultation meetings were;

- 10<sup>th</sup> January 2023, Sagante Jaldesa ward at chief's office
- 11<sup>th</sup> January 2023 at Marsabit Boys Secondaryondary School
- 12<sup>th</sup> January 2023 at Karare chief's office

### **4.2.1 MEMBERS PRESENT**

The Three wards meeting were attended by 450 Members of Public, 10 NG CDF Committees, Community elders, Youths, Religious leaders, Women representatives, School Head teachers, assistant chiefs, Chiefs and acting county commissioners.

### **4.2.2 PRELIMINARIES**

In each meeting religious leaders led the prayers followed by chiefs introducing participants. The chief then welcomed the chairman NG CDF to introduce members of NG CDF committee and staff. The SAKU NG CDF achievements in 2017 /2018, 2018/2019, 2019/2020 and 2020/2021 are highlighted. The objective of the meeting is then explained as identifying priority needs in the wards in the two Secondarytors of education and Security.

The NGCDFC Chairman, Mr. Guyo Bonaya, The NGCDFC Secretary Mr Boru Adhi and Fund Manager Mr Japhet Ngui, after introducing the NGCDFC Members to the Public and other invited Guests, thanked the participants for turning up for the meeting. They informed participants that needs in education and Security Sector in the constituency are overwhelming

and the resources available may not enable the committee to address all priority needs. They stated that equity and fairness will guide allocation of resources to 3 wards.

## SAGANTE JALDESA WARD PHOTOS

## CONCLUSION

The Community Members were informed that Issues raised in this Public Forum will be financed during the Financial Years 2022/2023 and 2023/2024. The Community Members were requested to take keen interest in all NG CDF projects implement in their sub location to ensure those contracted do quality work. The School board of management and assistant county commissioners were also urged to work closely with department of public works to ensure the technical plan and bill of quantities are done by professionals. The soil profiling and soil test should inform the design of all projects.

### MIN 02/NG-CDFC.05/01/2023: READING AND CONFIRMATION OF PREVIOUS MINUTES

The Secretary took the members through the Minutes of the previous meeting, which were confirmed to be the true copy of the deliberations by Sarah Dambi Wario and seconded by Arbe Galgallo Dokata.

### MIN 03/NG-CDFC.05/01/2023: MATTERS ARISING

There were no matters arising from the previous Minutes.

### MIN 04/NG-CDFC.05/01/2023: ONGOING PROJECTS

The Fund Account Manager tabled the ongoing projects for the previous financial year that require further funding. The projects were started in the financial year 2021/2022 and could not complete because they were not allocated enough funding thus the need to consider them again in this 2022-2023 financial year to complete the works. Below is the list of ongoing projects with their details:

Financial Year when project was first funded	Project name	Approved Activities	Outstanding Activities	Estimated Cost (Kshs.)	Allocation/ Approved Amount (Ksh)	Amount Disbursed (Kshs.)	Balance to complete (Kshs.)	Implementation Status/Level
2021/22	St. Peters Primary School	Construction of 3-roomed kitchen block to completion	Installation of 3 no. cupboard/shelves and 1no. energy saving Jiko	1,550,000	1,000,000	1,000,000	550,000	On-going – Construction of 3-roomed kitchen block is complete
2021/22	Gachacha Primary School	Construction of school fence and gate 600 meters with metallic posts, barbed wire, chain link to completion	Completion of construction of school additional fencing of 300 meters with metallic posts, barbed wire, chain link to completion	1,700,000	1,200,000	1,200,000	500,000	Complete
2021/22	Gadamoji High School	Construction of Administration block (Principal office,	Completion of construction of Administration block (Principal office,	12,000,000	4,500,000	4,500,000	7,500,000	On-going – internal finishes going on

#### MIN 05/ NG-CDFC.05/01/2023: PROJECTS PROPOSAL FINANCIAL YEAR 2022/2023

The Chairman informed the members that the committee is required to submit project proposals for the Financial Year 2022/2023 to the NG-CDF Board by 13<sup>th</sup> January, 2023. The Fund Account Manager informed members that Saku Constituency had been allocated a total of **Kshs. 131,342,462** for the 2022/2023 Financial Year.

The Fund account Manager briefed members on the guidelines for project proposal submission as documented in the Circular sent by the NG-CDF Board. The NG-CDFC members agreed to work on the allocation as below:-

The NGCDFC noted some new items in the Proposal, which were discussed as below:-

##### **a. Constituency Oversight Committee budget**

The Committee was informed of the new development on a provision of not more than 1% of the constituency allocation towards facilitation of the Constituency Oversight Committee activities in the financial year. The Fund account Manager further tabled a budget with details of the recommended activities for utilization of the sum allocated. After deliberation, the Committee approved **Kshs. 1,041,890.24** for the COC activities.

##### **b. Strategic Plan**

The Fund Account Manager explained to the NG CDFC the significance of the Strategic plan, emphasizing how it enables them to prioritize and prepare for constituency needs while also connecting them to the national development agenda as defined in the Kenya Vision 2030 and

**13.1.2023**

other Government initiatives. All Constituencies must set aside money for the creation of a five-year strategic plan in order to match their initiatives with the goals of the country's development. Following discussion, the Committee approved Kshs. 2,000,000 for the creation of the 2023–2027 strategic plan.

**c. Regional Sporting activities**

The Fund Account Manager also advised the NGCDFC of a new Circular issued by the Board encouraging them to think about taking part in at least two local sporting events (Football and Volleyball was agreed). He let the members know that the Upper Eastern area sports committee had proposed a budget of Kshs. 300,000 that would be paid by all of the region's constituencies to support regional sports competition. Following discussion, the committee decided to allocate the sports vote as shown in the following table to support regional activities as well as the other constituency sports program.

**d. Prioritization of other projects for 2022/2023**

The NG-CDFC determined that a Sum of Kshs. 64,873,698.48 was available for allocation to other Projects within the Constituency including environment and sports after allocating other administrative percentage provisions including vote for emergency. The Chairman used this as an opportunity to summarize the recommendations and proposals from the Ward Report of Meetings that were gathered in the various ward forums.

It was observed that the community is optimistic in the NG-CDF program, especially for initiatives that fall outside of its purview.

The NGCDFC carefully reviewed the ward report suggestions by prioritizing Projects in the list of every ward and making sure balance is achieved in wards' demands for infrastructure. This was done after earlier considering and allocating funds to ongoing projects.

After lengthy deliberations the members Approved the projects to factored in the financial year 2022/2023 project in all the five wards in the Constituency as below: -
