**MIN 05/22/09/2021: PROJECTS PROPOSAL FY 2021-2022**

The FAM informed the NGCDFC members that the allocation table for this financial year was out amounting to Kshs 137,088,879 and they were required to submit the project proposal before the end of September.

The ward report was tabled before the members and prioritization was done as below

**Disparity between project costing**

The NGCDFC members noted that some schools were in bad conditions and also the location of the schools are far and the terrains are bad to an extent of being inaccessible by Motor Vehicles hence they use man power to ferry the materials to the projects site and therefore required more funds than others and this is the reason some schools are rehabilitating or constructing less or same classes for the same or more amount respectively compared to others rehabilitating more classrooms and the allocation is the same or less and also allocation for some projects for example science laboratories ,classrooms and renovations are higher compared to others with similar project activities
