

NATIONAL GOVERNMENT CONSTITUENCY DEVELOPMENT FUND  
NDARAGWA CONSTITUENCY

WARD REPORT

FINANCIAL YEAR 2022/2023

SUBMITTED

13<sup>TH</sup> JANUARY, 2023

## 1.0 Introduction

### *1.1 Overview of NG-CDF*

The National Government Constituencies Development Fund (NG-CDF) is established under the NG-CDF Act, 2015 as amended in 2022. The main mandate of the Board is to approve project proposals submitted by various constituencies, timely and efficient disbursement of funds to Constituencies with respect to approved project proposals, to ensure efficient management of the Fund and to encourage best practices in the implementation of the projects. This is aimed at reducing poverty and enhancing regional equity at the Constituency level. The Fund is administered by the National Government Constituencies Development Fund Board (NG-CDFB) at the National level and managed by National Government Constituency Development Fund Committee (NG-CDFC) at the Constituency level. The Fund is domiciled within the ministry in charge of National Economic Policy & Planning, currently The National Treasury and Planning.

The NG-Constituency Development Act 2015 stipulates in part 5 section 27 subsection 1 and 2 that the chairperson of the NG-CDFC shall, within the first year of the commencement of a new Parliament and at least once every two years thereafter, convene open forum public meetings in every ward in the constituency to deliberate on development matters in the ward and in the constituency.

The NG-CDFC shall then deliberate on project proposals from all the wards in the constituency and any other projects which the Constituency Committee considers beneficial to the constituency, including joint projects with other constituencies, consider the national development plans and policies and the constituency strategic development plan, and identify a list of priority projects, both immediate and long term, out of which the list of projects to be submitted in accordance with the Act shall be drawn from.

Citizen participation in project planning, management and implementation planning requires the involvement of concerned stakeholders. This includes identifying public concerns and values and developing a broad consensus on planned initiatives. It is also about utilizing the vast amount of information and knowledge that stakeholders hold to find workable, efficient and sustainable solutions

Public participation encompasses a range of procedures and methods designed to consult, involve, and inform the public to allow those that would be potentially affected by a decision or policy to have input into the process. Community participation motivates the stakeholders to work together, recognize the benefits of their involvement and own the projects in their localities

Stakeholders play a central role in setting up priorities and objectives of development initiatives in order to ensure relevance and appropriateness. It is important that all stakeholders are involved in the development of projects and not just direct beneficiaries of an initiative.

### BACKGROUND OF NDARAGWA CONSTITUENCY

Chairman addressing people at NGCDF hall

Challenges

- a) Some community members were giving irreverent projects that are not community based. This showed that they were not well enlightened on the areas
- b) Members were really concerned on the roads of the area. and electricity connectivity
- c) They thanked the MP on the connectivity that was going on but noted that there were some areas that were not connected

**Way forward**

- a) It was noted that the NG-CDFC members to decide which among the proposed project would be prioritized.
- b) Appealing to the NG-CDF Board to release funds to the constituency in time within the financial year to help projects development and payment of school fees to bright but needy students.
- c) Frequent development forums should be held to give the public information concerning the development initiatives being undertaken by all the development partners and the various funding agencies.
- d) There should be a joint forum where NG-CDF, County Government and other development stakeholders plan together to avoid duplication of projects. and ensure people can be able to
