## 1.0 INTRODUCTION

The NG-Constituency Development Act 2015 stipulates in part 5 section 27 subsection 1 and 2 that the chairperson of the NG-CDFC shall, within the first year of the commencement of a new Parliament and at least once every two years thereafter, convene open forum public meetings in every ward in the constituency to deliberate on development matters in the ward and in the constituency.

The NG-CDFC shall then deliberate on project proposals from all the wards in the constituency and any other projects which the Constituency Committee considers beneficial to the constituency, including joint projects with other constituencies, consider the national development plans and policies and the constituency strategic development plan, and identify a list of priority projects, both immediate and long term, out of which the list of projects to be submitted in accordance with the Act shall be drawn from.

Citizen participation in project planning, management and implementation planning requires the involvement of concerned stakeholders. This includes identifying public concerns and values and developing a broad consensus on planned initiatives. It is also about utilizing the vast amount of information and knowledge that stakeholders hold to find workable, efficient and sustainable solutions

Public participation encompasses a range of procedures and methods designed to consult, involve, and inform the public to allow those that would be potentially affected by a decision or policy to have input into the process. Community participation motivates the stakeholders to work together, recognize the benefits of their involvement and own the projects in their localities.

Stakeholders play a central role in setting up priorities and objectives of development Initiatives in order to ensure relevance and appropriateness. It is important that all stakeholders are involved in the development of projects and not just direct beneficiaries of an initiative.

### 1.1 ABOUT NG-CDF

The Constituencies Development Fund (CDF) was established under the Constituencies Development Fund (CDF) Act, 2003, amended in 2007 and repealed by the CDF Act of 2013. In 2015, the CDF Act of 2013 was declared unconstitutional and a new Act was enacted in 2015, being the National Government Constituencies Development Fund Act, NG-CDF Act, 2015. The National Government Constituencies Development Fund (NGCDF) is under the Ministry of Devolution and Planning.

The Constituency Development Fund (CDF) was introduced in Kenya in 2003 with the passage of the CDF Act 2003 by the 9th Parliament of Kenya which was repealed in 2013 by the CDF Act 2013. The CDF Act provides that the government set aside at least 2.5% of its ordinary revenue for disbursement under the CDF program.

The fund was designed to support constituency-level, grass-root development projects. It was aimed to achieve equitable distribution of development resources across regions and to control imbalances in regional development brought about by partisan politics. It targeted all constituency-level development projects, particularly those aiming to combat poverty at the grassroots and entrench equitable distribution of development.

The objective of the Fund is to provide mechanisms for supplementing implementation of the National Government Development Agenda at the constituency level.

The CDF program has facilitated the putting up of new water systems, health and education facilities in all parts of the country, including remote areas that were usually overlooked during funds allocation in national budgets.

## **1.2 ABOUT MATHIRA NG-CDF**

#### 3.2.2 Preliminaries

Meeting started with a word of prayers by one of the member's present

#### 3.2.3 Introduction

Chairman introduced the CDF committee and his team to the meeting. He also outlined the core mandate of the CDF i.e. education, security and environment to a lesser extent. The members also introduced themselves and appreciated the forum for getting the chance to air and project their noble ideas and projects for their area

### **3.2.4 Comments by the NG-CDF Chairman**

The chairman made his opening remarks about the importance of the meeting where he stressed on the need and commitment of the CDF to work and deliver in an accountable and free manner. He also informed on the areas of mandate which are education and security. He also emphasized on the criteria of awarding bursary for the needy children that they will only be done by the public. On the MET fund issue, he said it was being addressed and it will be discussed in public forums since as much as it was a noble idea it was not sustainable. However, all the qualified students will be awarded equally.

The report of the MP objective to do two stadia in the constituency was also addressed. On school funding, piece meal will not be an option for the committee but will be done to schools in a manner that will show positive and impactful change. Parents will also be involved to provide unskilled labor.

### **Karatina Ward-Karatina Stadium**

#### **i. Youth talents/issues**

**4.0 CONCLUSION**

- The meeting concluded by conferring the area member of national assembly(MP) with the responsibility of appealing to the NG-CDF Board to release funds to the constituency in time within the financial year to help projects development and bursary allocation to bright but needy students.
- It was also that development forums should be held regularly to give the public information concerning the development initiatives being undertaken by CDF and the various funding agencies.
- There should be a joint forum and consultation between NG-CDF, County Government and other development stakeholders plan together to avoid duplication of projects.
- The meetings resolved that ongoing projects shall be given precedence, to fast track their utilization to enable the beneficiaries get value for money.
- It was also concluded that bursary awards should be of reasonable amount so as to give a more reasonable support to the needy child
- Allocations to projects should also be adequate, to enable completion of project once started, since if completion is delayed the project cost rises due to factors like inflation and wear and tear.
