

**KIHARU NATIONAL GOVERNMENT**

**CONSTITUENCY DEVELOPMENT FUND**

**IEBC NUMBER 106**

**WARD REPORT**

**2021/2022 FINANCIAL YEAR**

**SUBMITTED**

**SEPTEMBER 2021**

## **1.0 INTRODUCTION**

The NG-Constituency Development Act 2015 requires in part 5 section 27 subsection 1 and 2 that the chairperson of the NG-CDFC shall, within the first year of the commencement of a new Parliament and at least once every two years thereafter, convene open forum public meetings in every ward in the constituency to deliberate on development issues in the ward and in the constituency.

The NG-CDFC shall then deliberate on project proposals from all the wards in the constituency and any other projects which the Constituency Committee deems beneficial to the constituency, including mutual projects with other constituencies, consider the national development plans and policies and the constituency strategic development plan, and categorize a list of priority projects, both immediate and long term, out of which the list of projects to be submitted in accordance with the Act shall be drawn from.

Resident participation in project planning, management and implementation requires the contribution of concerned stakeholders. This includes identifying public concerns and values then developing a consensus on planned initiatives. It is also about utilizing the immense amount of information and knowledge that stakeholders hold to find workable, efficient and sustainable solutions.

Public participation includes a variety of procedures and methods intended to consult, engage, and inform the public to allow those that would be possibly affected by a decision or policy to have input into the process. Community participation inspires the stakeholders to labor in unison, recognize the benefits of their involvement and own the projects in their localities.

Stakeholders play a vital part in setting up priorities and objectives of development initiatives in order to ensure relevance and appropriateness. It is essential that all stakeholders are involved in the development of projects and not just direct beneficiaries of an initiative.

## **1.1 ABOUT NG-CDF**

The Constituency Development Fund (CDF) was established under the Constituencies Development Fund (CDF) Act, 2003, amended in 2007 and repealed by the CDF Act of 2013. In 2015, the CDF Act of 2013 was declared unconstitutional and a new Act was enacted in 2015, being the National Government Constituencies Development Fund Act, NG-CDF Act, 2015. The National Government Constituencies Development Fund (NG-CDF) is under the Ministry of Devolution and Planning.

The Constituency Development Fund (CDF) was introduced in Kenya in 2003 with the passage of the CDF Act 2003 by the 9th Parliament of Kenya which was repealed in 2013 by the CDF Act 2013. The NGCDF Act provides that the government set aside at least 2.5% of its ordinary revenue for disbursement under the CDF program.

The fund was intended to support constituency-level, grass-root development projects. It was designed to realize equitable distribution of development resources across regions and to control imbalances in regional development brought about by partisan politics. It targeted all constituency-level development projects, particularly those aiming to combat poverty at the grassroots and entrench equitable distribution of development.

The objective of the Fund is to provide mechanisms for supplementing implementation of the National Government development Agenda at the constituency level.

The NGCDF program has facilitated the putting up of new water systems, health and education facilities in all parts of the country, including remote areas that were usually overlooked during funds allocation in national budgets.

#### **3.6.2 PRELIMINARIES**

The area chief called the meeting into order and called upon one member to lead opening prayers. He welcomed members to the meeting and took the opportunity of introducing fellow chiefs and assistant chiefs.

### 3.6.3 COMMENTS BY THE ACC

The Assistant County Commissioner applauded NG-CDF efforts in development in the area and the constituency at large, since all the initiated projects have been implemented satisfactorily. He however appealed that NG-CDF should fund more projects in the area since it is the only government fund being felt by the constituents, and he impressed upon the area member of parliament to rally other members in the national assembly in order to enhance the constituency allocation.

### 3.6.4 COMMENTS BY THE FUND ACCOUNT MANAGER

He alluded that NG-CDF only funds community-based projects meant to serve community needs in the constituency and have long-term positive effects on people's wellbeing and also gave a briefing on the ineligible projects. She further asserted Cofounding is also allowed where a project can be financed jointly with neighboring constituency or from sources other than the Fund so long as the other financiers or donors of that project have no objection, and provided that the part funding for the project availed pursuant to the NG-CDF Act 2015 shall go to a defined unit or any part thereof or phase of the project in order to ensure that the particular portion defined in the allocation is completed with the funds allocated under this Act.

### 3.6.5 COMMENTS BY THE NG-CDFC CHAIRMAN

He stated that the office will undertake a continuous awareness exercise of the citizens to encourage them participate in NG-CDF affairs through M&E, budget tracking and social audits. This will increase efficiency and effectiveness in NG-CDF projects management by the people and enhance ownership of the projects by the community.

### 3.6.6 COMMENTS BY THE AREA MEMBER OF NATIONAL ASSEMBLY

He affirmed to the participants that he will be on the front line to promote development in the constituency. He called upon the stakeholders to undertake constructive development activities that would spur socio economic growth in the region. He promised to propel equitable distribution of resources in line with other national government agencies hand in hand with the county government.

### 3.6.8 CHALLENGES

Overreliance on NG-CDF funds by the public and the restrictive nature of the NG-CDF Act in terms of the scope of projects to be funded.

### 3.6.9 WAY FORWARD

The area Member of County Assembly to hold consultative meeting with all the stakeholders to avoid duplication/ double funding or concentration of similar of projects in one locality.

### 3.6.10 ADJOURNMENT

The area chief appreciated all present for their patience before inviting a volunteer to close the meeting with a word of prayer.

### 3.7 CONCLUSION

- The area member of national assembly was tasked to move a motion in the National Assembly for allocation of funds to constituencies based on population rather than equal share since Kiharu is double the size of her neighbors and was receiving an equal portion of developments funds with them hence the pressure on allocation of funds to projects and bursary.
- Frequent development forums should be held to give the public information concerning the development initiatives being undertaken by all the development partners and the various funding agencies.
- There should be a joint forum where NG-CDF, County Government and other development stakeholders plan together to avoid duplication of projects.
- Ongoing projects to be given top priority so that the community may enjoy the intended benefit as well as realize value for money.
