

KIGUMO NATIONAL GOVERNMENT

CONSTITUENCY DEVELOPMENT FUND

IEBC NUMBER 107

WARD REPORT

2021/2022 FINANCIAL YEAR

SUBMITTED

OCTOBER 2021

1.0 INTRODUCTION

The NG-Constituency Development Act 2015 requires in part 5 section 27 subsection 1 and 2 that the chairperson of the NG-CDFC shall, within the first year of the commencement of a new Parliament and at least once every two years thereafter, convene open forum public meetings in every ward in the constituency to deliberate on development issues in the ward and in the constituency.

The NG-CDFC shall then deliberate on project proposals from all the wards in the constituency and any other projects which the Constituency Committee deems beneficial to the constituency, including mutual projects with other constituencies, consider the national development plans and policies and the constituency strategic development plan, and categorize a list of priority projects, both immediate and long term, out of which the list of projects to be submitted in accordance with the Act shall be drawn from.

Resident participation in project planning, management and implementation requires the contribution of concerned stakeholders. This includes identifying public concerns and values then developing a consensus on planned initiatives. It is also about utilizing the immense amount of information and knowledge that stakeholders hold to find workable, efficient and sustainable solutions.

Public participation includes a variety of procedures and methods intended to consult, engage, and inform the public to allow those that would be possibly affected by a decision or policy to have input into the process. Community participation inspires the stakeholders to labor in unison, recognize the benefits of their involvement and own the projects in their localities.

Stakeholders play a vital part in setting up priorities and objectives of development initiatives in order to ensure relevance and appropriateness. It is essential that all stakeholders are involved in the development of projects and not just direct beneficiaries of an initiative.

1.1 ABOUT NG-CDF

The Constituency Development Fund (CDF) was established under the Constituencies Development Fund (CDF) Act, 2003, amended in 2007 and repealed by the CDF Act of 2013. In 2015, the CDF Act of 2013 was declared unconstitutional and a new Act was enacted in 2015, being the National Government Constituencies Development Fund Act, NG-CDF Act, 2015. The National Government Constituencies Development Fund (NG-CDF) is under the Ministry of Devolution and Planning.

The Constituency Development Fund (CDF) was introduced in Kenya in 2003 with the passage of the CDF Act 2003 by the 9th Parliament of Kenya which was repealed in 2013 by the CDF Act 2013. The CDF Act provides that the government set aside at least 2.5% of its ordinary revenue for disbursement under the CDF program.

The fund was intended to support constituency-level, grass-root development projects. It was designed to realize equitable distribution of development resources across regions and to control imbalances in regional development brought about by partisan politics. It targeted all constituency-level development projects, particularly those aiming to combat poverty at the grassroots and entrench equitable distribution of development.

The objective of the Fund is to provide mechanisms for supplementing implementation of the National Government development Agenda at the constituency level.

The NGCDF program has facilitated the putting up of new water systems, health and education facilities in all parts of the country, including remote areas that were usually overlooked during funds allocation in national budgets.
