## 1.0 Background on NGCDF

The National Government Constituencies Development Fund (NG-CDF) is established under Section 4 of the NG-CDF Act 2015 as amended in 2016, with an objective of addressing poverty and regional development imbalances by dedicating a minimum of 2.5% of the National Government share of annual revenue as divided by the annual Division of Revenue Act enacted pursuant to Article 218 of the Constitution. The funds are geared towards community driven development projects in every constituency identified and implemented at grassroots level.

The Fund is managed by the NG-CDF Board, which is a Body Corporate established pursuant to Sections 14, 15 and 16 of Act. At the constituency level, the day to day management of the Fund is vested on the National Government Constituency Development Fund Committees that are in place in each of the 290 constituencies countrywide.

The main mandate of NG-CDF Board is to consider project proposals submitted from various constituencies in accordance with the Act, approve for funding those projects proposals that are consistent with the Act and send funds to the respective constituency fund account of the approved projects.

#### 4.0.5 Challenges

5.0 The members noted that there was an over-reliance on the NG-CDF Kitty for funding of development Projects and Bursaries to needy students yet the funds disbursed to the Constituency is not enough to meet all the needs of the Constituents and inadequate funding.

#### 4.1.6 Way-forward

The members asked the government through the Member of National Assembly to increase the funding. This will cater for provision of bursaries and adequate infrastructure for the ever increasing enrolled students brought about by free basic education by the Government. The NG-CDFC will ensure adequate funding. Projects will be funded either to completion or to a defined implementation phase.

## **6.0 CONCLUSION**

The meetings concluded by resolving the following;

That the Members of National Assembly should lobby the Government to increase funding to National Government Constituencies Development Fund and that the funds should be disbursed timely to improve efficiency and effectiveness in Project Implementation

That NG-CDFC should organize more Public participation forums to help in Project identification and prioritization.

The meetings also resolved that Monitoring and Evaluation should be more frequent to increase oversight of Public Projects.

That allocation to Projects should be adequate to enable completion of Projects to avoid increase in costs of repair and maintenance and to cushion Projects from increase in costs due inflation

The Project implementations should be done under full Contracts and adequate supervision should be ensured.
