## 1.0 INTRODUCTION

The National Government Constituencies Development Fund (NG-CDF) is established under Section 4 of the NG-CDF Act 2015 as amended in 2016, with an objective of addressing poverty and regional development imbalances by dedicating a minimum of 2.5% of the National Government share of annual revenue as divided by the annual Division of Revenue Act enacted pursuant to Article 218 of the Constitution. The funds are geared towards community driven development projects in every constituency identified and implemented at grassroots level.

The Fund is managed by the NG-CDF Board, which is a Body Corporate established pursuant to Sections 14, 15 and 16 of Act. At the constituency level, the day to day management of the Fund is vested on the National Government Constituency Development Fund Committees that are in place in each of the 290 constituencies countrywide.

The main mandate of NG-CDF Board is to consider project proposals submitted from various constituencies in accordance with the Act, approve for funding those projects proposals that are consistent with the Act and send funds to the respective constituency fund account of the approved projects.

The NG-CDF Act 2016 sec 27(1) requires that the chairperson for the constituency committee shall within the first year of the commencement of a new parliament and at least once every two years thereafter, convene open forums public meeting in every ward in the constituency to deliberate on project proposals from all the wards in the constituency.

The previous ward meetings were held in August 2019. Proposals prioritized then were considered and some of the projects are complete while some are still ongoing. Various challenges have been faced in the process of implementation of the projects including delay of bills of quantities from county works, covid 19 pandemic among others.

In conformity to the above therefore, ward meetings were organized by the NG-CDFC Chairman inviting the Member of Parliament, ward administrators, area chiefs and assistant chiefs, NG-CDFC members and other stake holders. Various means of communication including print media, telephone calls, social media among others were used to inform the public of the intended ward meetings.

Kesses Constituency is an electoral constituency in Kenya. It is one of the constituencies in Uasin Gishu County

**Kesses Constituency Details:**

NG-CDF has to greater extent alleviated poverty at the constituency level. Many students some of whom are orphans have been able to realize their education goal through bursaries issued to universities, colleges, secondary and tertiary institutions.

The committee has a number of challenges, the constituency being vast the issue of project monitoring has been difficult. Secondly, the constituency has many poor residents hence the applicants for bursary are overwhelming hence leading to awarding of little to the beneficiaries.

The constituency is mostly cosmopolitan, but the major tribes are the Kalenjins and Kikuyus speaking communities. Most of the residents of the Constituency are poor and depend on livestock and crop farming for their livelihood.

## 2.4 Racecourse ward

The meeting was held on 17<sup>th</sup> September 2021 at Hill school primary hall from 11am-12.30pm. At least 30 participants attended the meeting. The area chief and their assistants and village elders were among those present in the meeting. The meeting was opened with a word of prayer from Mr. Serem head teacher Racecourse primary and thereafter introduction took place.

The master of ceremony for the day invited Ursulla Jepwambok who is a representative of the ward in the Ng-cdf committee to address the members. She thanked them for finding time to attend and he briefly informed the people the nature of projects that can be funded by NG-CDF and highlighted the development projects undertaken within the ward for the last four financial years. She noted that racecourse ward was the smallest in the constituency but much development had been undertaken. A total of Kshs. 45million and above had been disbursed to fund projects within the ward. Further, a total of Kshs. 18million had been disbursed as bursaries to the residents.

Afterwards the NG-CDFC chairman and Fam briefed the residents on the functions that can be undertaken by the fund. They took time to explain the reasons behind NG-CDF funding only education and security projects. Religious and political bodies cannot be funded by Ng-cdf.

### Conclusion/way forward

The function was a success and people were very grateful for having been called to give their views. They appreciated the work that NG-CDF and the MP have done for the last four years and requested for more to be done. Other issues that were noted include:

- Residents requested for such meetings should be held frequently.
- Participants requested the MP to be doing impromptu visits to schools.
- It was recommended that modern toilets with septic tank to be constructed for schools to solve the problem of sinking toilets.
- Projects implemented should be disability friendly.
- Ng-cdfc to do proper vetting of prequalified contractors
- Ng-cdfc to consider putting up a rehabilitation centre to assist school going children who have engaged themselves in drug abuse
- High mast floodlights to be erected in racecourse ward to keep up security.

Finally, the FAM reiterated that even though some of the proposals given could not be funded by NG-CDF, the pmcs should be patient for future funding. Further the county government would hold similar meeting hence advised the residents to come out in large numbers when they meetings are called.

It was therefore agreed as follows:

- ✓ The contractor within the constituency who have not been prequalified to visit the NG-CDF office for further advice and guidance by FAM.
- ✓ NG-CDFC will look at all the proposals and prioritize them accordingly.

The meeting ended with a word of prayer from Ms. Mercy Mburu principal Racecourse secondary..
