We, however appreciate that the operating environment has changed over time and a number of lessons have been learnt during the previous implementation period. It has therefore become necessary to review our experiences of the preceding period and align our activities to the dynamic operating environment and strategic priorities of the government as outlined in the various relevant policy documents.

By the Deputy County Commissioner (DCC)

This public participation becomes indispensable at this point in time because it will help NG-CDF to improve its performance by targeting and

allocating resources to priority projects. It will also provide the agenda for teamwork that is precondition for achievement of the set strategic objectives. The plan will ensure that NG-CDF remain organized and focused to the current national development agenda while holding leadership accountable.

By Hon. Joshua Kuttuny –Area MP

Cherangany constituents require projects that have positive impact on their lives and which they are adequately involved. This strategic plan indeed responds to this need. It provides the key strategic priorities to be pursued by NG-CDF committee as prioritized by the constituents themselves. The plan identifies key development challenges in the constituency within the mandate of NG-CDF, their causes and strategic interventions. The plan therefore remains an important tool that will support NG-CDF Committee and its Project Management Committees (PMCs) to effectively formulate action plans for quality services delivery to the constituents. It also forms the basis for monitoring and evaluating NG-CDF projects. It will ensure that the Funds allocated to NG-CDF are utilized in a transparent and more accountable manner for the benefit of the constituents.
