INTRODUCTION

CONSTITUENCY DEVELOPMENT FUND

The Constituencies Development Fund was created by the CDF Act, 2003 with the primary objective of addressing poverty at grassroots level by dedicating a minimum of 2.5% of the Government ordinary revenue to grassroots development and the reduction of poverty. In 2013 the CDF Act was repealed and replaced with CDF Act 2013 that is aligned to the constitution of Kenya 2010. The enactment of the CDF Act 2013 was mainly aimed to ensure that the law governing CDF is aligned to the constitution of Kenya 2010, specifically in compliance with the principles of transparency and Accountability, Separation of powers and Participation of the people. The new law was also aimed to align the operations of the Fund to the new devolved government structure. CDF Act Section 22 requires that projects under this Act shall be Community based in order to ensure that the prospective benefits are available to a widespread cross section of the inhabitants of a particular area. Kenya has a total of 290 (two hundred and ninety) constituencies which all receive CDF Funds equitably. The Annual allocations are: Emergency Reserve- 5%, Bursary – 25%, Office Administration/ Recurrent expenditure- 6%, Monitoring and Evaluation- 3%, Sports Activities- 2% and Environment Activities- 2%.

The Fund Account Manager informed members public participation is done after two years to allow the public to give out projects to be funded by NG-CDF according to priority and also to prioritize those projects that are ongoing. He further told members that projects to be funded were only of those functions that have not been devolved e.g. schools.

The chairman told members that projects were to be implemented without any alterations for example if one classroom was proposed then it should remain as such since projects are coded. He also informed them that there was an allocation for environmental activities something the communities were not aware of.
