The Fund Account Manager informed the Committee that the NGCDF Board had issued guidelines on the submission of Constituency Project Proposals for the 2021/2022 financial year vide its Circular dated 26th August 2021 and referenced NGCDF BOARD/CEO/BOARD CIRCULARS/VOL11 (030). The guidelines provided as follows:-

i) Basis for Identification of Project Proposals

The Circular made reference to Section 27 of the NGCDF Act which provides that the Chairperson of the Constituency Committee shall within the first year of a new parliament and at least once every two years convene open forum public meetings in every ward in the Constituency to deliberate on development matters in the Ward and in the Constituency in line with Article 10 of the Constitution and Section 27 of the NGCDF Act.

The Circular stipulates that Fund Account Managers shall therefore be expected to submit project proposals attached with a signed report on the community consultative forums to confirm compliance with the above legal requirement.

The Constituency Project Proposals shall take into consideration the provisions of the National Development Plans and policies as outlined in the Vision 2030-Medium Plan III; the Big Four Agenda; the Constituency Strategic Plan and the International Commitments and conventions to which Kenya is a signatory.

ii) Eligible Projects under the Act

The guidelines issued stipulated that eligible projects are those in compliance with Section 24 of the Act which provides that these projects are those that are in respect of works and services falling within the function of National Government under the Constitution.

Equally, these projects must be community based in order to ensure the benefits are available to a widespread cross-section of the inhabitants of a particular area. Further these projects should be those that foster sustainable development, promote human dignity and protection of the marginalized as outlined in national values and principles of governance.

The Board therefore directed the Fund Account Managers in liaison with the NGCDF Committees to ensure that the project proposals submitted to the Board are in conformity with the Act to facilitate expeditious approval.

iii) Constituency Interventions in Response to COVID-19 Pandemic

The guidelines further reminds the NGCDFCs to advise all PMCs on the requirement to comply with "Access to Government Procurement Opportunities (AGPO) and local content guidelines with a view to maximizing backward and forward linkages for quick resumption of normalcy and restoration of the country to optimal growth path.

iv) Projects Proposals Co-funded with other Agencies

The communication further refers to Section 49 of the NG-CDF Act which provides that the Board may consider part funding of a project financed from sources other than the Fund so long as the other financiers or donors of that project have no objection and provided that the part funding for the project availed pursuant to this Act shall go to a defined unit or any part thereof or phase of the project in order to ensure that the particular portion defined in the allocation is completed with the funds allocated under this Act.

It further guides that NG-CDFCs are therefore expected to enter into a formal agreement with providers of counterpart funding, clearly indicating the phase to be financed by the each party.

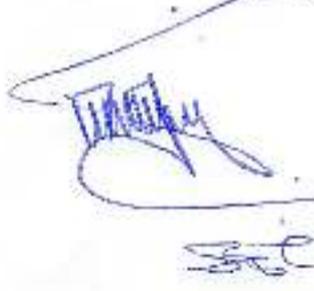

v) Completion of Ongoing Projects

The Circular provided that in conformity with Article 201 (d) of the Constitution and Section 46 (2) of the NGCDF Act, Constituencies are required to focus on completion of ongoing projects before embarking on new ones.

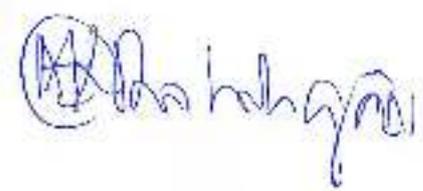

To enforce this, the Board issued a circular Ref: *NG-CDF Board/Programmes/Circulars/2021/1* dated **15th July, 2021** requiring each NG-CDF committee to submit a detailed report on all ongoing projects including estimated cost of completing an entire project or a defined phase that can be put to productive use upon completion.

vi) Clearance of outstanding issues with regard to previous financial years' Project Proposals

The Circular pointed out that some constituencies were yet to address issues raised by the Board that led to deferral of approval of project proposals submitted in previous years and Fund Account Managers were therefore required to prioritize clearance of such outstanding
