NATIONAL GOVERNMENT
CONSTITUENCY DEVELOPMENT FUND

WARD REPORTS

2022/2023 FINANCIAL YEAR

SUBMITTED
JANUARY 2023

1.1 Executive Summary

Fighting poverty at the grassroots level has been one of the key agendas of the Kenyan Government over the years. Since independence in 1963, the Government has initiated various rural development programs which include the Nguni (devolution) system (1963), District Development Grant Program (1966), The Special Rural Development Program (1965/70), District Development Planning (1971), Rural Development Fund Kenya, and The District Focus for Rural Development Strategy (1983/84) with the aim of improving people's wellbeing. Underlying all these development strategies was the government's concern for accelerating economic development. The periodic assessment of effectiveness of each of the above informed the shift in Government policy and strategy.

Subsequently, the Constituencies Development Fund became a new development strategy for Kenya to address inequalities in development across the country and fight poverty. The Fund established in 2003 through the CDF Act in the Kenya Gazette Supplement No. 107 (Act No 11) of 9th January 2004 was identified as an integrated and a holistic strategy for addressing multi-faceted development concerns in all Constituencies across the Country.

1.2 Background of the Fund

The National Government Constituencies Development Fund (NG-CDF) (hereafter referred to as the Fund) formerly Constituencies Development Fund (CDF), is a fund established in 2003 through an Act of Parliament, the Constituencies Development Fund Act, 2003. The Act was later reviewed by the CDF (Amendment) Act 2007, and repealed by CDF Act, 2013 which was subsequently succeeded by the current NG-CDF Act, 2015 and the NGCDF (Amendment) Act 2018 & 2022. The Fund is domiciled within the ministry in charge of national economic policy and planning, currently the Ministry of Devolution and Planning. The main purpose of the fund is to enhance infrastructural and socio-economic development at the Constituency level in order to reduce poverty by dedicating a minimum of two and half per cent (2.5%) of the National Government's share of annual revenue towards projects identified at constituency level by the communities.

In the NG-CDF framework, funds are channeled directly to the Constituencies for projects identified and prioritized by the residents of that Constituency. NG-CDF is one of the devolved funds the government operates. These above funds are part of measures put in place by the Government to help in reducing poverty among the Kenyan people. The funds target all constituency-level development projects and other initiatives, especially those aimed to tackle poverty at the grassroots.

1.3 Funding of NG-CDF.

The government allocation to the NGCDF kitty, comprising 2.5% of the annual National Government budget, has been increasing steadily over the years from Kshs1.2B in the FY2003/2004 to Kshs44.2B in FY2021/2022. This increased funding also calls for effective and efficient project identification, implementation, monitoring and evaluation to achieve intended results.

In the NGCDF framework, projects are managed by the Project Management Committees (PMCs) and the NG-CDFCs. This therefore requires that the respective committees have the requisite skills necessary for the performance of their functions.

Public participation

NG-CDF Act 2015 Section 25(1), The Chairperson of the Constituency Committee shall, within the first year of the Commencement of a new Parliament and at least Once every two years thereafter, Convene Open forum public meetings in every ward in the Constituency to deliberate on development matters in the Ward and in the Constituency.

Equally public participation is also enshrined in Constitution 2010 of Kenya under Article 10.
