The members went through the projects item by item, with the pending projects activities.

After deliberation the committee members agreed on the following projects allocation formula:

1. Give priority to **ongoing projects** to be completed before new one are started
2. Give priority to **new schools** which does not have the next classrooms for the students
3. Give priority to schools which are in **dire need** of renovations since many have leaking roofs, bad floors among others
4. Give priority to the projects submitted during **Performance Contract** for the period 2022-2023

Way forward

Considering that projects from the above categories deserve funds allocation in the FY 2022/2023, the committee agree to balance funding for the above mentioned 4 categories with **projects missing funding to be allocated funding in the FY 2023/2024.**

The committee therefore proposed the following **ongoing projects** to be completed in the FY 2022/2023 with total allocation of the remaining balance to complete the projects:

FINANCIAL	PROJECT	APPROVED ACTIVITIES	PENDING ACTIVITIES	AMOUNT	BALANCE TO
