## **0.0 Introduction or Background**

### **1.0 About NG-CDF**

2.0 The National Government Constituencies Development Fund (NG-CDF) formerly Constituencies Development Fund (CDF), is a fund established in 2003 through an Act of Parliament, the CDF, the CDF Act 2003. The Act was later reviewed by the CDF (Amendment) Act 2007, and repealed by CDF Act, 2013 which was subsequently succeeded by the current NG-CDF (Amendment) Act 2016.

The Fund is domiciled within the ministry in charge of national economic policy and planning, currently the Ministry of treasury and Planning.

The main purpose of the fund is to enhance infrastructural and socio-economic development at the grass root level in order to reduce poverty by dedicating a minimum of two and half per cent (2.5%) of all National Government's share of annual revenue towards community projects identified at constituency level by the communities.

The Fund is managed by the National Government Constituencies Development Fund Board, which is a body corporate with perpetual succession and common seal. The Board operates at national level, and comprises of the Board of Directors and a Secretariat.

The enactment of the CDF Act 2013 was mainly aimed to ensure that the law governing CDF is aligned to the Constitution of Kenya 2010, specifically in compliance with the principles of:

- Transparency and accountability,
- Separation of powers; and
- Participation of the people.

The new law was also aimed to align the operations of the Fund to the new devolved government structure.
