Way forward

Members discussed on the need to reallocate funds from other projects to facilitate the buying of more 13.78 acres land at an estimated cost of Kshs. 1,200,000.00 which is readily available for KMTC Shianda expansion which was key in realizing the desired goals as earmarked by the committee. The acquisition and fencing will cost committee Kshs.18, 500,000.00.

The Secretary Mr. Orao was asked to give a status report from the land sellers, which he did confirm to members that the land owners were very positive and that the negotiations are almost complete, except money factor was slowing the process.

The committee deliberated on the issue and approved that the FAM do a resubmission request to the board as follows:
