1.0 INTRODUCTION

The National Government Constituencies Development Fund (NG-CDF) is established under the NG-CDF Act, 2015 as amended in 2022. The main mandate of the Board is to approve project proposals submitted by various constituencies, timely and efficient disbursement of funds to Constituencies with respect to approved project proposals, to ensure efficient management of the Fund and to encourage best practices in the implementation of the projects. This is aimed at reducing poverty and enhancing regional equity at the Constituency level. The Fund is administered by the National Government Constituencies Development Fund Board (NG-CDFB) at the National level and managed by National Government Constituency Development Fund Committee (NG-CDFC) at the Constituency level. The Fund is domiciled within the ministry in charge of National Economic Policy & Planning, currently The National Treasury and Planning.

The NG-Constituency Development Act 2015 stipulates in part 5 section 27 subsection 1 and 2 that the chairperson of the NG-CDFC shall, within the first year of the commencement of a new Parliament and at least once every two years thereafter, convene open forum public meetings in every ward in the constituency to deliberate on development matters in the ward and in the constituency.

The NG-CDFC shall then deliberate on project proposals from all the wards in the constituency and any other projects which the Constituency Committee considers beneficial to the constituency, including joint projects with other constituencies, consider the national development plans and policies and the constituency strategic development plan, and identify a list of priority projects, both immediate and long term, out of which the list of projects to be submitted in accordance with the Act shall be drawn from.

Citizen participation in project planning, management and implementation planning requires the involvement of concerned stakeholders. This includes identifying public concerns and values and developing a broad consensus on planned initiatives. It is also about utilizing the vast amount of information and knowledge that stakeholders hold to find workable, efficient and sustainable solutions

Public participation encompasses a range of procedures and methods designed to consult, involve, and inform the public to allow those that would be potentially affected by a decision or policy to have input into the process. Community participation motivates the stakeholders to work together, recognize the benefits of their involvement and own the projects in their localities

Stakeholders play a central role in setting up priorities and objectives of development Initiatives in order to ensure relevance and appropriateness. It is important that

all stakeholders are involved in the development of projects and not just direct beneficiaries of an initiative.

1.1 ABOUT NG-CDF

The National Government Constituencies Development Fund (NG-CDF) is established under the NG-CDF Act, 2015 as amended in 2022. The main mandate of the Board is to approve project proposals submitted by various constituencies, timely and efficient disbursement of funds to Constituencies with respect to approved project proposals, to ensure efficient management of the Fund and to encourage best practices in the implementation of the projects. This is aimed at reducing poverty and enhancing regional equity at the Constituency level. The Fund is

administered by the National Government Constituencies Development Fund Board (NG-CDFB) at the National level and managed by National Government Constituency Development Fund Committee (NG-CDFC) at the Constituency level. The Fund is domiciled within the ministry in charge of National Economic Policy & Planning, currently The National Treasury and Planning.

The Constituency Development Fund (CDF) was introduced in Kenya in 2003 with the passage of the CDF Act 2003 by the 9th Parliament of Kenya which was repealed in 2013 by the CDF Act 2013. The CDF Act provides that the government set aside at least 2.5% of its ordinary revenue for disbursement under the CDF program.

The fund was designed to support constituency-level, grass-root development projects. It was aimed to achieve equitable distribution of development resources across regions and to control imbalances in regional development brought about by partisan politics. It targeted all constituency-level development projects, particularly those aiming to combat poverty at the grassroots and entrench equitable distribution of development.

The objective of the Fund is to provide mechanisms for supplementing implementation of the National Government development Agenda at the constituency level.

The CDF program has facilitated the putting up of new water systems, health and education facilities in all parts of the country, including remote areas that were usually overlooked during funds allocation in national budgets.

He informed the participants that this exercise happens after every two years. He clearly stated the projects that are funded by the NG-CDF and ones that are not funded and also the ones that are conditionally funded.
