Comments by FAM/Chairman on bursary and environment

The chairman NG-CDFC informed the public that bursary in the constituency is distributed equitable among the bright and needy applicants in the constituency and

therefore those that meet the above requirements were urged to be applying for the bursaries.

On the environmental issues the chairman informed the public that it is the responsibility of the two forms of governments to conserve the environment and therefore some money needs to be allocated this financial year 2024/2025 towards environmental conservation.

Challenges

1. Some members of the Community wanted NG-CDF to fund projects which are not funded by NG-CDF e.g. supporting specific groups of people in the community.
2. Attendance was not as expected as the number was low.

Way-forward

- The community needs to be motivated so that they attend such programs in large numbers in the future as their opinions and deliberations counts.
- More sensitization should be done on the projects funded by NG-CDF

Conclusion/way forward

I wish to congratulate the residence of the three wards in Ugunja constituency for their fruitful contributions during the wards forums and look forward to prosperity of the constituency.
