2022/2023 FINANCIAL YEAR

1.0 INTRODUCTION

The NG-Constituency Development Act 2015 stipulates in part 5 section 27 subsection 1 and 2 that the chairperson of the NG-CDFC shall, within the first year of the commencement of a new Parliament and at least once every two years thereafter, convene open forum public meetings in every ward in the constituency to deliberate on development matters in the ward and in the constituency.

The NG-CDFC shall then deliberate on project proposals from all the wards in the constituency and any other projects which the Constituency Committee considers beneficial to the constituency, including joint projects with other constituencies, consider the national development plans and policies and the constituency strategic development plan, and identify a list of priority projects, both immediate and long term, out of which the list of projects to be submitted in accordance with the Act shall be drawn from.

Citizen participation in project planning, management and implementation planning requires the involvement of concerned stakeholders. This includes identifying public concerns and values and developing a broad consensus on planned initiatives. It is also about utilizing the vast amount of information and knowledge that stakeholders hold to find workable, efficient and sustainable solutions

Public participation encompasses a range of procedures and methods designed to consult, involve, and inform the public to allow those that would be potentially affected by a decision or policy to have input into the process. Community participation motivates the stakeholders to work together, recognize the benefits of their involvement and own the projects in their localities

Stakeholders play a central role in setting up priorities and objectives of development Initiatives in order to ensure relevance and appropriateness. It is important that all stakeholders are involved in the development of projects and not just direct beneficiaries of an initiative.

1.1 ABOUT NG-CDF

The Constituencies Development Fund (CDF) was established under the Constituencies Development Fund (CDF) Act, 2003, amended in 2007 and repealed by the CDF Act of 2013. In 2015, the CDF Act of 2013 was declared unconstitutional and a new Act was enacted in 2015, being the National Government Constituencies Development Fund Act, NG-CDF Act, 2015. The

National Government Constituencies Development Fund (NG-CDF) is under the Ministry of Devolution and Planning.

The Constituency Development Fund (CDF) was introduced in Kenya in 2003 with the passage of the CDF Act 2003 by the 9th Parliament of Kenya which was repealed in 2013 by the CDF Act 2013. The CDF Act provides that the government set aside at least 2.5% of its ordinary revenue for disbursement under the CDF program.

The fund was designed to support constituency-level, grass-root development projects. It was aimed to achieve equitable distribution of development resources across regions and to control imbalances in regional development brought about by partisan politics. It targeted all constituency-level development projects, particularly those aiming to combat poverty at the grassroots and entrench equitable distribution of development.

The objective of the Fund is to provide mechanisms for supplementing implementation of the National Government development Agenda at the constituency level.

The CDF program has facilitated the putting up of new water systems, health and education facilities in all parts of the country, including remote areas that were usually overlooked during funds allocation in national budgets.

The meeting was started by a word of prayer from a volunteer in the ward after being called to order by the NG-CDFC project coordinator.

8.3 COMMENTS BY THE DEPUTY COUNTY COMMISSIONER

He stated that it was important for the participants to be part and parcel of the development process through engaging fully in project identification process so that after the project is completed they are in a position to own the projects.

8.4. COMMENTS BY THE FUND ACCOUNT MANAGER

The fund account manager stated that it was important for the members to understand that NG-CDF cannot fund devolved projects. He added that projects proposed should be those that will have the value of money and those that will be beneficial to the community but not those that meet personal or private needs of individuals.

8.5. COMMENTS BY THE NG-CDFC CHAIRMAN

He appreciated the participation of the members and the ability of the members to distinguish the devolved projects and national government projects at the time of giving the project proposals. He added that it was significant for the members to come up with

The committee members **went further and deliberated** on the projects and wanted to find out why cost of renovation in various schools were different and the clerk of works in consultation with public works department gave the following reasons;

- a) Classrooms **to be renovated** have different sizes
- b) The renovation activities varies from one school to another i.e
 - Some classrooms roofing were found to be fully damaged.
 - Ring beam **not installed**
 - Roof structure fully worn out
 - Plastering in some extent not done or partially incomplete
- In some projects floors were found to be badly damaged hence need for hard core parking,blinding and slab casting
