Members went through the report and noted that most challenges faced in Mombasa County were almost similar with Kisumu East. This included lack of adequate land, water problems, high number of students due to the Government directive of 100% transition has also led to inadequate classrooms which can accommodate the large number of students.

KSMEAST/NGCDF/84/16/09/2021

REVIEW OF PROJECT PROPOSALS FY 2021/2022

Members discussed and agreed that the criteria to be used in identifying the projects that will be funded is to give priority to the projects that did not benefit from the CDF funding in the last financial year 2020/2021. Interest will be in schools that serve as polling stations and those that have most needs.

However the fund Account manager informed members that due to recent price increase of steel materials and the same steel materials are key in roofing of classrooms and other facilities in the constituency, it was therefore prudent for the committee to increase the cost of constructing one classroom. The matter was deliberated deeply by members and finally agreed

Tel/mn

Page 3 of 12

to increase the cost of constructing one classroom by Ksh.50,000 (fifty Thousand) to make it Kshs.1,400,000 up from Kshs.1,350,000 allocated in the last financial Year 2020/2021 Budget allocation.
