1.0 INTRODUCTION

The Kabondo Kasipul Strategic Plan 2018-2022 under Chapter nine (9) provides for determining whether the activities under the strategic focus area and the strategic objectives are being implemented according to planned timelines and available resources. This is also in pursuant of the National Government-Constituency Development Fund (NG-CDF) Act 2015 that stipulates in Part 5 Section 27 Subsection 1 and 2 that the chairperson of the NG-CDF shall, within the first year of the commencement of a new parliament and at least once every two years thereafter, convene open public forums in every ward in the constituency to deliberate on development matters in the ward and in the constituency.

It is against that background and requirements that public forums were held in the constituency to deliberate on project proposals from all the wards in the constituency to review priority projects for implementation going forward to 2022. This included identifying public concerns and values and developing a broad consensus on planned initiatives. It was also about sharing experiences and utilizing the vast amount of information and knowledge that those stakeholders possess to find workable, efficient and sustainable solutions. It was part of a continual process to motivate the stakeholders to work together, recognize the benefits of their involvement and own the projects in their localities.

2.0 BACKGROUND

Kabondo-Kasipul constituency is designated as constituency number 247 by the Independent Electoral and Boundaries Commission (IEBC). The Constituency is administratively in Rachuonyo East Sub County of Homabay County. It borders Sigowet/Soin to the East, North Mugirango and West Mugirango to the South East, Kitutu Chache North to the South, Kasipul to the West, Karachuonyo to North West, and Nyakach to the North. The Constituency covers a total area of 249.80 km². The constituency is made up of two divisions Kabondo and East Kasipul. It consists of 11 locations and 23 sub locations.

The Kabondo Kasipul Strategic Plan 201-2022 was developed with the end in mind. It was structured in two broad categories:

- (a) Functions that fall under the constitutional mandate of the Member of Parliament and
- (b) Functions that are implemented by the national/county government with the MP will having only a collaborative role because they are implemented at the constituency level.

It is therefore important to emphasize that MP is not accountable for the delivery of results since the budgets for funding these activities fall under the national/county governments.

The Strategic plan was linked and operationally aligned to the development agenda and set the roadmap for delivering quality services to the people of Kabondo Kasipul Constituency.

The plan set out the vision, mission, core values and strategic objectives, targets, and strategies for the constituency. It represented a statement of intent designed to ensure it is an implementable document. The development of the plan was inclusive and participatory where participants were drawn from a cross-section of interest groups at ward and constituency level. The consultations also involved professionals who hail from the constituency based locally and in the diaspora.

The Strategic Plan provided the background of Kabondo Kasipul and the features including the constituency's comparative advantage. The plan had 10 Strategic Focus Areas. It is further categorized into a 3-tier project implementation framework involving ward based projects, cross-cutting projects that are constituency-wide and will impact on all constituents and finally flagship projects with strong economic and social transformative potential across the constituency.

In pursuing these strategic foci, a number of strategic objectives were proposed. These include; transforming the education system to foster access and delivery of quality teaching and learning for improved performance; improving access to security and related services as the 2 areas under the MPs mandate. The rest are collaborative including agricultural, good roads, universal health care, and access to safe water, electricity connectivity, and mainstreaming youth and gender affairs into constituency development initiatives.

Finally, the Strategic Plan had proposed 3 main components that will ensure a successful delivery of results. This included; a monitoring and evaluation framework with performance indicators, periodic evaluations and progress reporting. The second component is a strong projects implementation and coordination team. Lastly, the Strategic Plan proposed a robust resource mobilization strategy to supplement funding from NG-CDF.

This report is a culmination of ward level public participation meetings here citizens and the constituency management as well as the Member of parliament reviewed progress of development projects implemented in the just ended financial year. This process also allowed constituents to re-look at the order of priority projects as earlier captured in the public participation engagements. As shall be seen in the list of priorities, some of the projects slated for later years have been brought forward due to various reasons including the fact they the citizenry feel that those projects will address immediate needs now rather than later.

The review process concentrated on projects and initiatives that fall within the mandate of the Member of Parliament resourced through the NG-CDF. A further comprehensive review will be conducted at the mid-term of the current strategic plan that will cover all categories and sectors.

The Kabondo-Kasipul Strategic Plan's implementation is still convicted on the phasing approach adopted at the initial commencement in such a way that duplication and overlap are eliminated. The implementation Plan will be based on three action principles namely; (a) Focus (b) Alignment (c) Execution.

2.0 REVIEW OF MISSION AND STRATEGIC DIRECTION

The review reaffirmed the constituency's mission, vision, core-values as well as its call to action-slogan. These remained as stated below

3.0 REVIEW OF STRATEGIC FOCUS

The Strategic Plan 2018-2023 focuses on two areas that were categorized as sectors. The two categories include 1) Functions under the Mandate of the Member of Parliament and Collaborative Functions that are undertaken by the devolved county government.

The review process concentrated on projects and initiatives that fall within the mandate of the Member of Parliament resourced through the NG-CDF.

1. Mandate – Functions under the responsibility of the Member of Parliament	
Strategic Focus Area: 1	Education
Strategic Focus Area: 2	Security

2. Collaborative- Devolved functions, not under the responsibility Member of Parliament, but where she works in Collaboration with responsible agencies.	
Strategic Focus Area: 3	Agriculture
Strategic Focus Area: 4	Roads
Strategic Focus Area: 5	Health
Strategic Focus Area: 6	Water and Sanitation
Strategic Focus Area: 7	Energy, Environment, and Natural Resources
Strategic Focus Area: 8	Trade, Commerce, Industry and Cooperatives
Strategic Focus Area: 9	Youth, Gender, Sports and Culture
Strategic Focus Area 10	Information Communication and Technology (ICT)

An in-depth look at the two sectors re-affirmed the issues affecting those areas. The strategies laid for addressing the issues as well as the initiatives that would tackle challenges. Below is a summary of the two sectors;

3.1 Education

Goal:	Transformed Education System to Foster Access and Delivery of Quality Teaching and Learning for Improved Performance
Strategic Result:	Improved School's Infrastructure and performance

Sector Objectives	Strategies for Achieving Sector Objectives
<ol style="list-style-type: none"> 1. To be among the top performing constituencies in both academic and co-curriculum performance at all levels of education. 2. To increase transition rates from primary to secondary schools and from secondary to tertiary institutions. 3. To improve infrastructure in all schools to a modern and a child/student friendly learning environment. 4. To create awareness on drug and substance abuse among students and pupils and positive parenting. 5. To sensitize constituents on the importance of boy child education. 6. Support development and improvement of technical institutions 7. Provide bursary and link aspiring students to education loans 	<ul style="list-style-type: none"> - Expansion of numbers of classrooms - Renovation of existing school buildings - Construction/stocking of functional schools' library - Establishment of functional computer laboratory with internet infrastructure - Construction of adequate modern toilets - Construction of protective perimeter fence/gates - Establish sustainable tree planting program - Renovation/Construction of ECDE classes - Increase access to electricity in all schools - Improve/provide ICT infrastructure for teaching - Improve access roads to schools - Provide/encourage access to clean and safe water - Upgrade technical institution and promote student enrolment - Address teacher postings - Introduce benchmarking, exchange programs, alumni associations' days and prize giving days. - Introduce mentorship programs for the boy/girl child including educative forums on drug and substance use.

3.2 Security

Goal:	To Enhance Safety and Security of Communities in Kabondo-Kasipul
Strategic Result:	Collaborative Engagement Between Community and Police Apparatus

Sector Objectives	Strategies for achieving Sector Objectives
<ol style="list-style-type: none"> 1. To curb insecurity within the constituency. 2. To sensitize constituents on the need to be secure their neighborhoods through <i>Nyumba Kumi</i> and other security initiatives. 	<ul style="list-style-type: none"> - Construct police posts and police housing. - Install security lights to cover key areas within the constituency. - Promote adoption of <i>Nyumba Kumi</i> and other community policing initiatives. - Encourage formation of youth groups and increased training to improve their skills and ensure they are more economically engaged.

3.3 Challenges shared by the citizenry on the implementation

Community members cited a few challenges that they would like addressed. These include;

- While the citizens appreciate the support from the NG-CDF funding, they noted that delay in funding from the national government resulting into delay or slow implementation of projects should be addressed by the Honorable MP.
- Citizens also raised concerns on the restrictive nature of the projects being funded by NG-CDF especially in the health and roads sectors, but the Area Member of Parliament urged them to forward the projects to the Area Member of County Assembly because they are devolved functions.
- Late disbursement of Project funds leads to delayed implementation of Projects and bursary disbursement to Students.
- Over-reliance on NG-CDF funds by the public and the restrictive nature of the NG-CDF Act in terms of the scope of projects to be funded.

4.0 REVIEW OF WORKINGS OF THE INSTITUTIONAL FRAMEWORK

Stakeholders especially the NG-CDF Managers office and the NG-CDFC have made strides about building linkages with partners who have not only made promises but also actualized projects and initiatives within the constituency as envisioned by the strategic plan.

It is further affirmed that effective implementation of the strategy and action plan will require focused and well-coordinated efforts of all stakeholders. The Constituency Leadership continues to work on building strong linkages among the players and ensure effective stakeholder engagement and coordination for mutual accountability. The main players in the implementation of the Strategic Plan include;

Member of Parliament –Kabondo Kasipul

The overall success of this Strategic Plan will require unwavering political goodwill from the top leadership of the constituency led by the Member of Parliament. The other arms of the constituency management will undertake day-to-day implementation processes.

Development Strategy Committee

The Member of Parliament appoints a team to assist her develop a Strategic Plan for implementation during her term in office. The committee is charged with developing a Strategic Plan. The plan sets the roadmap for delivering quality services to the people of Kabondo Kasipul Constituency. The is meant to outline the vision, mission, core values and strategic objectives, targets, and strategies for the constituency.

The National Government -Constituency Development Fund –

The National Government Constituency Development Fund (NG-CDF) Act establishes four committees to manage the Fund namely;

- The Constituency Development Fund Board
- The Constituency Development Fund Committee
- The Constituency Development Committees
- The Project Management Committees

The National Government – Constituency Development Board

This is a fully-fledged Parastatal under the State Department responsible for National Economic Policy, Planning and Development under the Ministry of Devolution and Planning thus reports to the Cabinet Secretary who in turn reports to Parliament on matters touching on CDF. It is a body corporate falling under the National Treasury.

The National Government - Constituency Development Fund Committee

This is the policy and implementing arm of the NG-CDFC. The CDFC has membership of up to eleven people. It is constituted as follows;

- National government official as assigned by the Cabinet Secretary
- The area Member of Parliament
- Three men elected/nominated by ward development committees with one youth
- Three women elected at ward development committees provided one of them is a youth
- One person living with disability
- One person nominated from the NGO
- One officer of the CD serving as an ex-officio member

The mandate of CDFC is to administer, allocate, monitor and account for the funds channeled to the constituency through the NG-CDF kitty. It is answerable to the NG-CDF Board.

Project Management Committees (PMC)

The PMCs were created under Section I of the NG-CDF regulations 2016. They identify community needs, propose projects to be funded by NG-CDF implement and manage the projects through technical support of relevant government departments. To maintain proper financial and procurement records and conduct project M&E. Members of committees for various projects were in-attendance and were able to update members of the public on progress of their specific projects.

The Fund Account Manager for the NG-CDFC

This is a government officer charged with the responsibility of supervising and controlling the day to day administration of the fund. The incumbent officer was instrumental in explaining and educating the public on the role of the NG-CDF and its scope during the public participation forums

Constituency Oversight Committee

The Member of Parliament shall appoint a Constituency Oversight Committee under section 53 of the NG-CDF Act who shall perform its functions in the furtherance of community oversight over the Fund Committee.

Constituency Office

The constituency office was established under the parliamentary services Act. Duties or responsibilities of this office were lauded by members of the public, citing coordination and information sharing as some of the observable responsibilities undertaken satisfactorily.

County Development Committee.

The Kabondo Kasipul CDFC works closely with heads of departments of the national and county governments. The chair of this committee visited all wards during the public participation meetings.

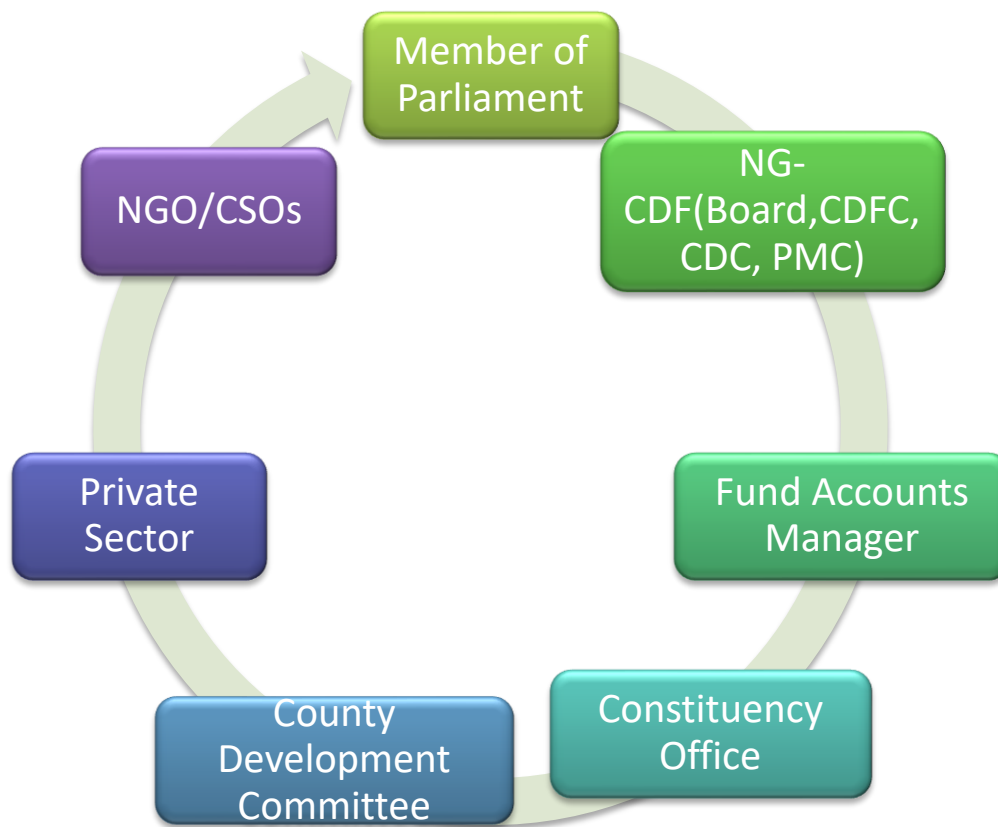

Private Sectors

The Constituency Leadership did engage the private sector in the implementation of the Strategic Plan. The private sector is expected to be a driver in the constituency development the promotion of good governance and financial support. Scholarships to school are examples of projects that were undertaken by private sector players in the constituency in the last two years.

Development Partners

The Constituency leadership continues to engage partners to support the Strategic Objectives especially for those activities aligned to donor funding. This will require constant consultation with the development partners, some already working in the constituency. This will not only require financial resources but also human, material, and technical support.

Figure 1: Summary of implementation framework

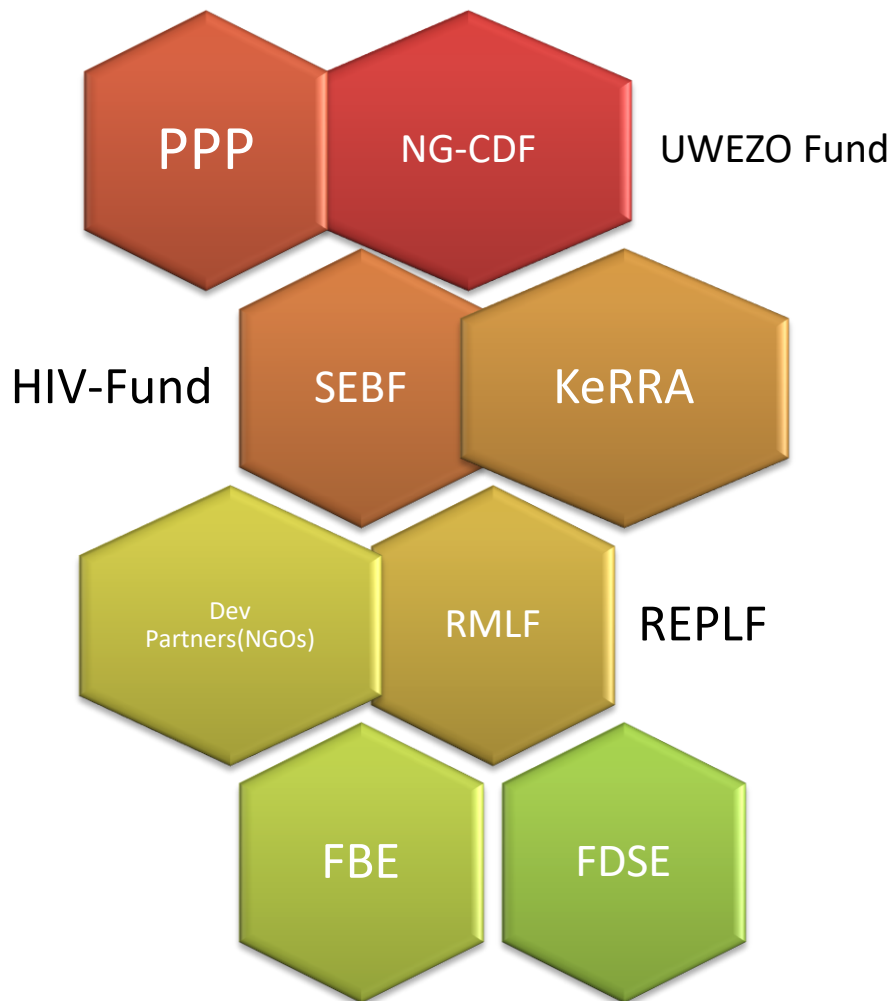

5.0 REVIEW OF RESOURCE MOBILISATION

The Member of Parliament Hon Eve Obara has focused on resourcing for the constituency's needs from varied sources just as envisioned in the strategy document. The aim is to achieve an effective development strategy through efficient and sustainable resource mobilization, utilization and management. The Strategy took cognizant of the fact that NG-CDF funding which is the core funding for the constituency is inadequate to fund all the proposed projects.

The main challenge with funding has been the delay in the disbursement of funding and inadequate funding by the national government. This has meant the project implementation is delayed.

Summary of collaborators and sources of support for projects envisaged in the strategic plan 2018-2022

Figure 2: Summary of Stakeholders funding sources for the strategic plan

6.0 REVIEW OF IMPLEMENTATION PROGRESS OF STRATEGIES

The table presents the summary of progress made in implementing the strategies set out to develop the various areas in the constituency.

5.1 Education

GOAL:	TRANSFORMED EDUCATION SYSTEM TO FOSTER ACCESS AND DELIVERY OF QUALITY TEACHING AND LEARNING FOR IMPROVED PERFORMANCE
STRATEGIC RESULT:	Improved School's Infrastructure and performance

Sector Objectives	Intervention reviewed	Progress as at 2019
1. To be among the top performing constituencies in both academic and co-curriculum performance at all levels of education.	Expansion of numbers of classrooms	38 classes constructed
	Renovation of existing school buildings	64 classes renovated

Environment				
	Schools Tree Planting Project	<p>Establish through Schools a tree planting program to increase tree cover in the constituency</p>	<p>2000 seedlings have been planted in schools to increase tree cover in the Constituency</p>	<p>-Homa-Bay County -Partners</p>

8.0 PROPOSED PROJECTS FOR 2019/2020

The process of the review of the strategic plan included re-affirmation of priorities of projects and initiatives especially in the two key sectors that are the mandate of the National Government Constituency Development Fund.

The public participation forums were all attended by the area MP-Hon Even Obara, the strategic development committee members, the Fund Accounts Manager, Chairperson of the NG-CDFC, the Sub-County Commissioner, Chiefs and Assistant chiefs of the various sub-locations among other notable community leaders.

This section is organized as per the wards that constitute Kabondo-Kasipul constituency. The projects are summarized in tables for and separated for each ward for ease of reference.

8.1 PROJECTS PROPOSAL FINAL

WARD	PROJECT NAME	ORIGINAL COST	CUMULATIVE ALLOCATION	PROJECT ACTIVITY	AMOUNT ALLOCATED	STATUS
Constituency	Bursary Secondary Schools	20,650,000.00	-	Payment of Bursary to needy students in Secondary Schools and Scholarship for Kabondo Kasipul Stars Scholarships	19,850,000.00	New
Constituency	Bursary University/ Tertiary Schools	11,200,000.00	-	Payment of bursary to needy student in Universities and Tertiary Colleges and Youth Vocational Trainings skills	10,500,000.00	New
Constituency	Bursary Special Schools	2,500,000.00	-	Payment of bursary to needy students with special cases in Secondary Schools.	2,500,000.00	New
Constituency	NHIF/Social Security Fund	1,800,000.00	-	Payment for provision of medical insurance cover to 300 vulnerable families	1,800,000.00	New

9.0 Conclusion

The goodwill demonstrated by the political leadership of the constituency was applauded both by the citizenry and the national government structure, there was a promise from the Member of Parliament Hon Eve Obara to continue to reach out and offer necessary support to facilitate development.

The strategic development committee's commitment was also appreciated by all stakeholders who cited their focus and follow-up as a strong factor that has promoted smooth working environment.

The bursary committee was appreciated for its transparency and improvement in expediting disbursement in a timely manner and consideration for the deserving cases of students across the constituency.

It was apparent that citizens need continuous education on the roles and responsibilities of the NG-CDF as well as the Member of Parliament. There is a huge gap around political literacy of the citizenry, it is important that more civic education should be targeted by all stakeholders including the county government.

The SACCO was noted as a great lead in Kabondo-Kasipul and its launch slated for 8th of November will be a great milestone and a watershed moment for the cooperative movement in the constituency.

The area Member of Parliament commits to the monitoring of the milestones of the strategic plan for the constituency and is keen to plan and engage on a further more comprehensive mid-term review of the strategic direction of the constituency.

Citizens' participation is paramount and the leadership appreciates the level of engagement in such processes as was witnessed during this process.
