5.8 Challenges

Some of the challenges experienced in this ward were lack of proper mobilization leading to low attendance, lateness, bad roads worsened by rain fall, politicizing the agenda of projects prioritization by the residents, confusion of the devolved functions and demand for sitting allowances by those in attendance which was not budgeted for.

5.9 Way-forward

There should be proper mobilization through chiefs barazas, the invitation should be made through adverts in the local radio channels, public sensitization on NG-CDF matters should be aggressively be carried out to educate the public on the NG-CDF operations.

6.8 Challenges

Some of the challenges experienced in this ward were lack of proper mobilization leading to low attendance, lateness, bad roads worsened by rain fall, politicizing the agenda of projects prioritization by the residents, confusion of the devolved functions and demand for sitting allowances by those in attendance which was not budgeted for.

6.9 Way-forward

There should be proper mobilization through chiefs barazas, the invitation should be made through adverts in the local radio channels, public sensitization on NGCDF matters should be aggressively be carried out to educate the public on the NGCDF operations.

7.0 Conclusion/way forward

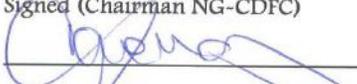

The meeting was successful, NG-CDFC was supposed to consider the priority lists
