

AWENDO NG-CDF

IEBC NUMBER 254

CONSTITUENCY DEVELOPMENT FUND

WARD REPORT

2021/2022 FINANCIAL YEAR

SUBMITTED

SEPTEMBER 2021

1.0 INTRODUCTION

The NG-Constituency Development Fund Act 2013 stipulates in part 5 section 27 subsection 1 and 2 that the chairperson of the NG-CDF shall, within the first year of the commencement of a new Parliament and at least once every two years thereafter, convene open forum public meetings in every ward in the constituency to deliberate on development matters in the ward and in the constituency.

The NG-CDF shall then determine on project proposals from all the wards in the constituency and any other projects which the Constituency Committee considers beneficial to the constituency, including joint projects with other constituencies, consider the national development plans and policies and the constituency strategic development plan, and identify a list of priority projects, both immediate and long term, out of which the list of projects to be submitted in accordance with the Act shall be drawn from.

Effective participation in project planning, management and implementation requires the involvement of concerned stakeholders. This includes identifying public concerns and values and developing a broad consensus on planned initiatives. It is also about utilizing the vast amount of information and knowledge that stakeholders hold to find workable, efficient and sustainable solutions.

Public participation encompasses a range of procedures and methods designed to consult, involve, and inform the public to allow those that would be potentially affected by a decision or policy to have input into the process. Community participation motivates the stakeholders to work together, recognize the benefits of their involvement and own the projects in their localities. Stakeholders play a central role in setting up priorities and objectives of development.

Initiatives in order to ensure relevance and appropriateness. It is important that all stakeholders are involved in the development of projects and not just direct beneficiaries of an initiative.

1.1 ABBREVIATIONS

The Constituencies Development Fund (CDF) was established under the Constituencies Development Fund (CDF) Act, 2003, amended in 2007 and repealed by the CDF Act of 2013. In 2015, the CDF Act of 2013 was declared unconstitutional and a new Act was enacted in 2013, setting the National Government Constituencies Development Fund Act, NG-CDF Act, 2015. The National Government Constituencies Development Fund (NG-CDF) is under the Ministry of Devolution and Planning.

The Constituency Development Fund (CDF) was introduced in Kenya in 2003 with the passage of the CDF Act 2003 by the 9th Parliament of Kenya which was repealed in 2013 by the CDF Act 2013. The CDF Act provides that the government set aside at least 2.5% of its ordinary revenue for disbursement under the CDF program.

The fund was designed to support constituency-level, grass-root development projects. It was aimed to achieve equitable distribution of development resources across regions and to control imbalances in regional development brought about by partisan politics. It targeted all constituency-level development projects, particularly those aiming to combat poverty at the grassroots and ensure equitable distribution of development.

The objective of the fund is to provide mechanisms for supplementing implementation of the National Government Development Agenda at the constituency level.

including remote areas that were usually overlooked during funds allocation in national budgets.

The enactment of the CIDF Act 2013 was mainly aimed to ensure that the law governing CIDF is aligned to the Constitution of Kenya 2010, specifically in compliance with the principles of:

- Transparency and accountability;
- Separation of powers; and
- Participation of the people.

The new law was also aimed to align the operations of the fund to the new devolved government structure.

80-05 AWENDO

The assessment of decentralized funds use was done based on the belief that decentralizing funding bodies at the local level have a better understanding of community needs. Decentralized funds are established to increase community participation in local decision making, enhance government transparency, speed up government responsiveness, and improve quality of service delivery.

3.4.6 COMMENTS BY THE AREA MEMBER OF NATIONAL ASSEMBLY

He pointed out that the impact of NC-CDF cannot be understated in transforming people's lives in the country. In the education sector, NC-CDF has facilitated construction of various infrastructural developments in schools, and this has assisted in increasing student enrolment and offering of conducive learning environment. The NC-CDF hereby has helped retain in schools' students from low income families. Hence, the public should champion for the protection and retention of the fund as much as possible.
