1.0 INTRODUCTION

The NG-Constituency Development Act 2015 stipulates in part 5 section 27 subsection 1 and 2 that the chairperson of the NG-CDFC shall, within the first year of the commencement of a new Parliament and at least once every two years thereafter, convene open forum public meetings in every ward in the constituency to deliberate on development matters in the ward and in the constituency.

The NG-CDFC shall then deliberate on project proposals from all the wards in the constituency and any other projects which the Constituency Committee considers beneficial to the constituency, including joint projects with other constituencies, consider the national development plans and policies and the constituency strategic development plan, and identify a list of priority projects, both immediate and long term, out of which the list of projects to be submitted in accordance with the Act shall be drawn from.

Citizen participation in project planning, management and implementation planning requires the involvement of concerned stakeholders. This includes identifying public concerns and values and developing a broad consensus on planned initiatives. It is also about utilizing the vast amount of information and knowledge that stakeholders hold to find workable, efficient and sustainable solutions

Public participation encompasses a range of procedures and methods designed to consult, involve, and inform the public to allow those that would be potentially affected by a decision or policy to have input into the process. Community participation motivates the stakeholders to work together, recognize the benefits of their involvement and own the projects in their localities

Stakeholders play a central role in setting up priorities and objectives of development Initiatives in order to ensure relevance and appropriateness. It is important that all stakeholders are involved in the development of projects and not just direct beneficiaries of an initiative.

1.1 ABOUT NG-CDF

The Constituencies Development Fund (CDF) was established under the Constituencies Development Fund (CDF) Act, 2003, amended in 2007 and repealed by the CDF Act of 2013. In 2015, the CDF Act of 2013 was declared unconstitutional and a new Act was enacted in 2015, being the National Government Constituencies Development Fund Act,

NG-CDF Act, 2015. The National Government Constituencies Development Fund (NG- CDF) is under the Ministry of Devolution and Planning.

The Constituency Development Fund (CDF) was introduced in Kenya in 2003 with the passage of the CDF Act 2003 by the 9th Parliament of Kenya which was repealed in 2013 by the CDF Act 2013. The CDF Act provides that the government set aside at least 2.5% of its ordinary revenue for disbursement under the CDF program.

The fund was designed to support constituency-level, grass-root development projects. It was aimed to achieve equitable distribution of development resources across regions and to control imbalances in regional development brought about by partisan politics. It targeted all constituency-level development projects, particularly those aiming to combat poverty at the grassroots and entrench equitable distribution of development.

The objective of the Fund is to provide mechanisms for supplementing implementation of the National Government development Agenda at the constituency level.

The CDF program has facilitated the putting up of new water systems, health and education facilities in all parts of the country, including remote areas that were usually overlooked during funds allocation in national budgets.

3.4.3 COMMENTS BY THE DEPUTY COUNTY COMMISSIONER

He explained to the meeting the history of urban development funding in Kenya. Since independence in 1963 aimed at fighting poverty at the grassroots level has been one of the key agendas of the Kenyan government. The government has initiated various urban development programmes including Special urban Development Programme, District Development Planning, urban Development Fund and the District Focus for urban Development Strategy with the aim of improving people's wellbeing.

However, most of these programmes failed to address the needs of local people due to lack of political will, inadequate government funding, lack of appropriate technology, neglect of institutional development, lack of beneficiary participation and poor coordination from top to the bottom. However, in 2003 the government introduced Constituency Development Fund (NG-CDF), to fight poverty at the

grassroots and since its inception; NG-CDF has had tremendous impact among the urban communities in Kenya

3.4.4 COMMENTS BY THE AREA MEMBER OF COUNTY ASSEMBLY

The area MCA appreciated the joint effort towards development in the constituency and called upon the members to diligently work for the betterment of the area. 3.4.7 COMMENTS BY THE AREA MEMBER OF NATIONAL ASSEMBLY

He mentioned that if the public is involved in the full decision making process during projects identification, their concerns may be met early on in the planning process when changes may be easier to make, rather than late in the process when even small changes may cost both time and money.

Ngunyumu primary school	Education	Purchase and supply of school desks	Ngomongo
Daniel Comboni primary school	Education	Purchase and supply of school desks	Highridge
