## THE STEPS OF THE CONSULTATIVE FORUM

### INTRODUCTORY REMARKS

There was a word of prayer from Pastor Odoyo

### NG-CDFC CHAIRMAN

The Chairman welcomed the residents for the meeting and made a brief statement to usher in the Public Participation forum.

The Chairman Mr. Kabucho took time to explain to the constituents the nature of projects that can be undertaken by the NG-CDF and those are the ones that can be done by the National Government according to the Constitution.

### HON GEORGE THEURI- MP EMBAKASI WEST

Hon George Theuri thanked the members for the honoring the invite to come and exercise their constitutional right to participate in decision making and propose the projects which best fit their needs.

He reminded the members of the cordial working relation between him and the area MCA a factor that has worked in favour of the Constituencies because the leaders have worked together to utilize the available resources considering the fact that there are some projects that can be implemented by the MP that the MCA cannot do and vice versa.

Key in his opening remarks was the Buruburu 1 primary school autism block which is the first ever of its kind in the republic to be done in a public primary school and urged those in attendance to visit the project.

He however noted the low attendance that was there considering that messages had been sent to all bursary beneficiaries and noted the contradiction between the days when bursary is being issued and when public participation is ongoing.

.

## CLOSING REMARKS

## REMARKS BY DCC GITONGA

Mr. Gitonga is a member of Embakasi West NG-CDFC and therefore he was in attendance as a member of the committee as Kariobangi South Ward administratively is handled by another Deputy County Commissioner.

He gave an opportunity to the Chiefs present to introduce themselves.

The Chiefs present were Madam Hilda and Assistant Chief Okeke

Madam Hilda noted that meetings will be held between residents and police to address the issues of Police harassments and ensure there is rapport between residents and Police.

Madam Hilda also enlightened members on the 988 number with the slogan see say, here say, suspect say.

The DCC Mr Murungi emphasized the fact that Public participation is a constitutional right of the constituents and they should exercise it.

He informed those in attendance that he will communicate with his colleague the DCC of the area and address the issues that had been raised.

---

#### REMARKS BY THE AREA MCA HON.ROBERT MBATIA

Hon Mbatia appreciate the members for attending the forum.

He noted that the projects proposed will be handled by the respective agencies

In his final remarks he noted that not all projects proposed will be implemented due to limitation of scope and limitation of funds

---

#### REMARKS BY THE AREA MP HON.GEORGE THEURI

He appreciated the residents for attending the meetings.

Hon George Theuri did something very good in that he took the members through a step by step break down of how the funds are spent.

The aim of him doing that was because the community needed to understand how the funds are spent because at times they might think that the funds are not being utilized properly without understanding that NG-CDF works with a budget.

#### CONCLUSION

The Consultative forum was a success because the residents were able to openly propose the projects they want to be implemented and also raise a few concerns which were addressed. However, it was noted there is need for a sensitization so that the residents can distinguish between the roles of NG-CDF and other Government Institution. Nevertheless the NG-NG-CDFC had done its best by involving the residents of Uhuru/Kariobangi South Ward in the project identification process.

### REMARKS BY THE AREA MP HON.GEORGE THEURI

Hon George Theuri pointed out to the fact the session was informative.

The Honorable MP in his speech took the route of sensitization.

He was keen to address some of the complaints that had been put forth of which most are being construed from a misunderstanding of the roles of NG-CDF.

On of the complaints was on the perimeter walls in Tumaini and Unity primary schools which were partly done. He informed the constituents that the NG-CDF works with a budget and due to financial constraints it was not possible to complete perimeter walls all-round the school.

Regarding the issue of roads, he sensitized those in attendance that some roads are KERRA others are KURA others are County and others that are access roads to schools can be done by NG-

CDF. He however noted that with proper coordination between the MP and MCA then they can cast the net wide for the benefit of the community.

On the issue of refugees taking opportunities that belong to the constituents, he noted that it is important for the youth to embrace the available opportunities because it is lack of aggressiveness that is harming them.

He also advised the youths not to be selective as far as jobs are concerned and hard work pays.

Further he informed those in attendance the process of budgeting in the NG-CDF and took them through a breakdown of the roles that are undertaken.

## CONCLUSION

The Consultative forum was a success because the residents were able to openly propose the projects they want to be implemented and also raise a few concerns which were addressed. However, it was noted there is need for a sensitization so that the residents can distinguish between the roles of NG-CDF and other Government Institution. Nevertheless the NG-NG-CDFC had done its best by involving the residents of Umoja 2 Ward in the project identification process.
