- j. Establishment of lehely girls secondary school
- k. Classrooms and toilets at Ohiyo Primary school
- l. Lockers, chairs, Fence , Dining hall at Leheley secondary school

3.0 CHALLENGES

The challenges in this ward include many mushrooming settlements whose viability cannot be established for now. Many of these settlements have very few households and require all social amenities just like bigger centers. This will mean that projects will be thinly distributed and the impact of those projects will not be felt considering that human needs are unlimited but resources are scarce.

4.0 RECCOMENDATIONS

The way out of this challenge is to conduct public sensitization on the need to settle at the bigger centers where social amenities are available and adequate

3.0 Conclusion

The National Government constituency Development Fund Committee (NG-CDFC) should discuss the ward minutes considering the need for equity in sharing of resources between and among the seven wards. Reference should be made to the Constituency Strategic plan, County Development Plans, the National Medium Term and long-term National Development priorities before coming up with the final project priorities. This is just but a guide and it is the prerogative of the NG-CDFC to come up with the final list of projects to be funded..
