Conclusion

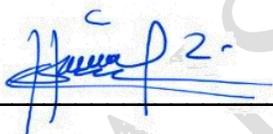

The National Government constituency Development Fund Committee (NG-CDFC) should discuss the ward minutes considering the need for equity in sharing of resources between and among the five wards. Reference should be made to the Constituency Strategic plan, County Development Plans, the National Medium Term and Big Four (4) agenda priorities before coming up with the final project priorities. This is just but a guide and it is the prerogative of the NG-CDFC to come up with the final list of projects to be funded.
