RE: REQUEST FOR TREE SEEDLINGS FOR NGUKUMAHANDO SECONDARY.

I am writing to request for seedlings for Ngukumahando Secondary, a Public School.

This is to enable the school to effectively implement the Presidential Directive on tree planting.

We have about ½ acre of land within the compound that can accommodate close to 600 seedlings.

We also have borehole with enough water for managing the trees. Further, the school has adequate fence for security. We will assign each a student at least 5 trees for care and maintenance to ensure the project is a success.

We look to your consideration.

Yours Faithfully

Dennis Oula
