TO THE SUB COUNTY DIRECTOR OF EDUCATION
TIGANIA WEST

Dear *Ms Anastacia,*

CLIMATE CHANGE MITIGATION PROJECTS

The National Government Constituency Development Fund (NGCDF) is established under section 4(1) of NGCDF act 2015(2023) amended as a national government fund.

One of it's mandate is to fund climate change mitigation projects especially planting of tree seedlings within national government institutions.

It's against this backdrop I wish to request you to bring to the attention of principals and head teachers to express their interest to us in writing in this very important undertaking. In the expression of the interest, the principals and head teachers must indicate among others, the number of tree seedlings they need, type of tree seedlings and commitment to nurture and protect them. This information is vital in our planning and also for success and sustainability of the projects. Only those who will express their interest will be considered.

This information is urgently needed and the signed and stamped request may be sent through WhattsApp 0723257187 by Friday 22/11/2024 or be dropped at our offices in Uruu.

Yours

Sincerely,

Harrison Wachira

RE: REQUEST FOR TREE SEEDLINGS
FOR CLIMATE CHANGE MITIGATION
PROJECTS:

I humbly wish to express my willingness in participating in the climate change mitigation project by requesting for one thousand (1000) assorted trees seedlings; gravelia, mitiu (Improved lea), mitiu, among others which will help the school to conserve the environment. It will also act as a good example to the learners and the community at large. The school partnership will very much appreciate if offered a chance to partner with you in combating the climate change. Thanks in advance.

Yours faithfully,

TAWLE DAY SECONDARY SCHOOL

P.O BOX 20-60602

KIANJAI

21/11/2024

THE FUNDS MANAGER,
NG-CONSTITUENCY DEVELOPMENT FUND,
TIGANIA WEST CONSTITUENCY,
P.O BOX 150-60602,
KIANJAI.

Dear Sir,

RE: REQUEST FOR TREES FOR PLANTING.

The above matter refers.

Twale Day Secondary School expresses interest to be supplied with 400 assorted tree seedlings of the following types.

- a) Yellow barked acacia – LEERA - 200 pieces.
- b) Acacia Tortilis – MITHILOLO- 100 pieces
- c) Black barked Acacia – NKILOROTI -50 pieces
- d) Apple-ring Acacia – MIGAA – 50 pieces

to mitigate against climate change in our school.

Twale Day Secondary is located in an arsal area of lower Akithii that is pummeled by vagaries of Mother nature during the dry season between July –October every year. Severe wind during this period poses a big threat of blowing off the roofs of the classrooms. This is attested by the many torn ironsheets covering toilets and classes.

By getting the above tree seedlings, we promise to take care of the trees by weeding around the base and watering them to maturity with water connected to the school from a nearby community borehole.

I look forward to a favourable reply from you. Thank you.

Yours faithfully,

Dear Sir/Madam

CLIMATE CHANGE MITIGATION PROJECTS

With reference to the above mentioned mandate on climate change mitigation projects – planting of tree seedlings within national government institutions, do hereby express our interest as a public institutions to undertake and participate in the exercise. We need at least hundred seedlings each for hash avocado and macadamia seedlings.

The school has a very strong and committed world life club, agricultural club, debate club and lastly though not the least the scout club, who have all participated in climate change mitigation projects on their own initiative previously hence getting this support from the national government will not only boost their morale but also energize them to perform this task to the very best.

Thanks in anticipation for positive response.

Dear Madam/Sir,

RE: REQUEST FOR SEEDLINGS

I am writing on behalf of our school to request some seedlings following your letter for institutions to ask for the same from your office. Our school has always been committed to promoting environmental awareness and sustainability, and we believe that this is an excellent opportunity to encourage our students to take an active role in protecting our planet and mitigate the adverse effects of climate change.

We would be grateful if you could provide us with 800 seedlings of the following species: **grivellia**, **pine**, **eucalyptus** and **fruit tree**. We plan to grow these plants in the school garden and involve our students/workers in the planting process. We believe that this activity will not only help our students develop a sense of responsibility towards the environment but also contribute to the beautification of our school.

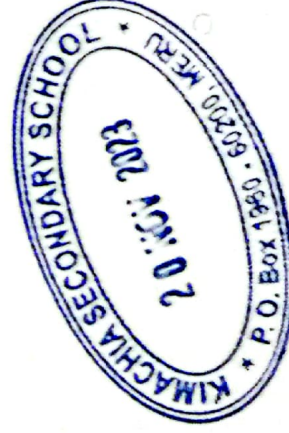

We would appreciate it if you could let us know the availability of these seedlings. If you have any other recommendations for plants that would be suitable for our school garden, we would be happy to consider them.

Name of Species	No.

Re: Request to be assigned wood tree
planting seedlings

Following your office request for
seeds to apply for seedling, the
Baraimu Integrated school request to
be given (1500) one thousand five
hundred tree seedling. Five hundred
of them should be fruit trees like avocado
others should include hard wood trees
We promise to take care of the trees
to maturity

Thanks in advance

HEADTEACHER

DEAR SIR/MADAM,

RE: REQUEST FOR TREE SEEDLINGS FOR CLIMATE
CHANGE MITIGATION PROJECT.

I humbly acknowledge willingness in participating
in climate change mitigation project by requesting
for one thousand (1000) gardenia (minimum) tree
seedlings which will help the school to
conserve the environment and act as the role
model to the school community at large.

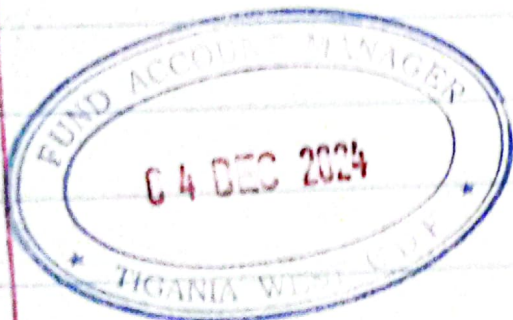

Thanks for continued support in climate
change mitigation projects

Yours sincerely

TO: NCED FUND ACCOUNT MANAGER
TIGANIA WEST CONSTITUENCY

Dear Sir Madam

RE: REQUEST FOR SUPPLY OF TREE SEEDLINGS

This is in respect to your letter dated 19/11/2024 concerning climate mitigation funding.
I kindly request for the following tree seedlings:-

S/NO	TYPE	NO REQUESTED
1	Graveyard (Makumbura)	150
2	Makumbura (Makumbura)	50
TOTAL		200

Our Agriculture Department has been at the forefront in formulating policies and putting up proper mechanisms in ensuring the environment within the school is climate friendly, this is done through educating our students in all levels about the need for environmental conservation as a form of climate mitigation procedure. We plan to nurture the requested seedlings 100% until maturity.

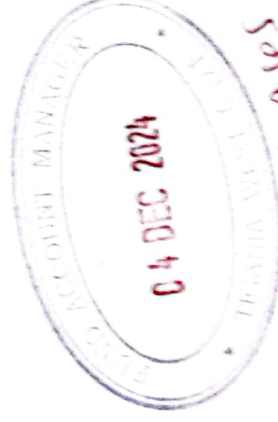

Thanks in advance

Yours faithfully

Dear Sir/

RE: SCHOOL PLANTING SEEDLING

I believe this finds you well.
We kindly wish to request your good
office to support the school with planting
seedling.

Since the school is located in a drier
region, you can assist with the following
variety:

- (i) Accacia variety - at least 50 pieces
 - (ii) Adapted dry land casia (Muthiwa) 800 pcs
 - (iii) Grwaria variety 150 pcs
- Total number = 1000

Looking forward for a positive response.

Thank you.
Yours faithfully
