## 0.0 Introduction or Background

### 0.1 About CDF

The Constituencies Development Fund (CDF) was established under the Constituencies Development Fund (CDF) Act, amended in 2007 and replaced by the CDF Act of 2013. In 2015, the Act of 2013 was declared unconstitutional and a new Act was enacted in 2015, called the National Government Constituencies Development Fund Act NG-CDF Act 2015 amended 2016. The National Government Constituencies Development fund (NG-CDF) was placed under the Ministry of Devolution and Planning.

The objective of the Fund is to provide mechanism for supplementing implementation of the National Government Development Agenda at the Constituency level.

### 0.2 About Nakuru Town West

Nakuru Town West Constituency was carved out of the former Nakuru Town Constituency. The constituency has six wards namely:- London, Kaptembwo, Shabaab, Rhonda, Kapkures and Barut wards. The Constituency shares part of Nakuru town with Nakuru town East Constituency. It borders Rongai, Nakuru town East and Njoro Constituencies.

The main economic activity is farming. Despite the constituency having factories and industrial area, most of the slum dwellings are found within the constituency and with poor infrastructures.

The committee finds a lot of challenges when allocating funds since project demands is always higher than the allocations. Most of the residents are poor and they highly depend on the funds.

*Note: Comments should not exceed three paragraphs*

2.7 Conclusion/way forward.

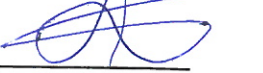

During public participation forum in line with COVID19 regulations on public gatherings, it was realized that many of the public were at least conversant with NG-CDF Operation and projects fundable under the fund within the new Act 2015 Amended 2016. This helped in easy, quick and efficient project identification which reduced the time wastage during public participation project identification.

It was also noted that there were many projects that needed funding in schools, security especially chiefs and assistant chief's offices and roads.

It was deliberated and resolved that the projects will be prioritized and funded in need basis until all are implemented. It was also realized that public sensitization need to be carried out as this will enable the public to fully understand the NG-CDF and its operations and further enable them to differentiate between Devolved projects under county Government and National Government projects.
