DEAR SIR,

## RE: REQUEST FOR LAB ITEMS

Fafi Girls' Secondary School is the only girls' secondary school this constituency. The school admitted its first batch of students in February 2010. It has a total 287 students as at now.

The school has many problems which have been resulted by the illiteracy of the parents, recent security threats and the COVID 19 outbreak. These problems have led to poor payment of fees which also led to the inability of the school to procure essential learning materials.

For now, we request your good office to assist as procure necessary science laboratory equipment and chemicals.

Please find an attached list of the most needed items.

Hoping that the request will receive you kind consideration.

Please expedite action.

Yours faithfully,

Mohamud M Dubat
